KIDNAP-SLAYERS GET GAS DEATH DEC. 18. Handcuffed and wearing chains, Carl Austin Hall (left) and Mrs. Bonnie Heady (right) leave the federal courthouse in Kansas City, Mo., after hearing their death sentence for the murder of Bobby Green lease. The convicted slayers will die in the Missouri gas chamber on Dec. 18.

Trip to Gas Chamber Awaits Condemned Kidnap Slayers

KANSAS CITY (AP) — The condemned kidnap-killers of 6-year-old Bobby Greenlease waited in jail cells today for their last trip—the trip to the lethal gas chamber in the Missouri State Prison just one week before Christmas.

Carl Austin Hall and Mrs. Bonnie Brown Heady will be executed at the same time—as soon as possible after 12:01 a.m. Dec. 18.

They showed little emotion yesterday as they heard a federal judge, carrying out a jury's recommendation, sentence them to die.

Appear Remorseful

But an Episcopal priest who visited them later said the kidnapers appeared remorseful.

"When I saw him previous to the trial on two occasions his first statements were those of remorse," said the Rev. George Evans. "I saw him again this afternoon and at his request talked to Mrs. Heady. This was the first time I had seen Mrs. Heady. She likewise expressed great contrition."

A federal official said, "There have been double executions before and we plan to do it in this case."

Hall and Mrs. Heady will be seated in the gas chamber on two metal chairs about three feet apart. Under the chairs are stone crocks containing sulphuric acid. When the prisoners are strapped into place, a lever is tripped, causing cyanide to drop into the acid and producing a deadly gas.

Matter of Seconds

The gas renders them unconscious within a matter of seconds," the official said.

Mrs. Heady, a divorce, has expressed a desire to marry Hall before their execution, court officials said. Hall, who also was married and divorced, has not indicated a similar desire, the officials reported.

The director of the Federal Bureau of Prisons would have to give permission for such a marriage.

There was small chance of an appeal. Roy Dietrich, court-appointed attorney for Hall, said he saw nothing to warrant appealing the decision of U. S. District Judge Albert L. Reeves.

The 34-year-old playboy and his 41-year old alcoholic mistress watched dry-eyed as the tragic case drew to a dramatic close on the fourth day of the trial.

They seemed relieved as they were hustled out of the courtroom, handcuffed to waist chains and closely guarded by U. S. deputy marshals on their way back to their separate cells in the Jackson County Jail.

To Be Moved Soon

Acting U. S. Mashal William Tatman indicated they would be moved to the death row in the state prison at Jefferson City within a few days.

Mrs. Heady will be the first woman to die in the Missouri gas chamber. The 30 men who have been executed there have been stripped to the shorts to lessen the possibility of gas clinging to their clothing. Arrangements have been made for Mrs. Heady to be clad in long black shorts and a black halter. She will be blindfolded, as will Hall.

After the jury retired for its de-

Conservancy District Audit Report Issued

Scioto-Sandusky Will Be Lacking in Funds To Repay Assessments

COLUMBUS, Ohio (AP) — The Scioto-Sandusky Conservancy District—teetering on its financial foundations will not have enough money to refund assessments to member counties if ordered by courts to do so.

State Auditor James A. Rhodes yesterday issued a report showing the 17-county district collected $311,697 in its 19 years of life. All it had in cash as of last May 31 was $12,499—plus $926 worth of maps.

The 15-county Maumee Conservancy District's audit showed receipts of $348,954. Of that $122,573 was invested in U. S. Treasury notes and $32,081 was on deposit in banks.

Court Ruling Disastrous

The State Supreme Court dealt Ohio's flood control set up a severe blow last July. It ruled district assessments were really taxes and the districts had no right to levy them without voter or county commission approval. They had no such approval.

Members of the Maumee district have a suit in Defiance County Common Pleas Court demanding repayment of assessments. At least six other suits have been brought in both districts.

The auditor's report on the Scioto—Sandusky district showed this division of total expenses of $298,272.

Got Most of Fees

Engineering $188,398; legal fees $55,501; administrative expense $43,900 and conservancy court $10,471. It attacked several items listed under legal fees.

Inspector Elmer A. Keller said most of the money in legal fees went to Pretzman and Dillon, a Columbus law firm.

Allen I. Pretzman of the firm also received payments as district

(Turn to CONSERVANCY, P. 12)

Marion County Included

Included in the 17-county district is Marion County which collected a total of $22,281 in the December tax collection. Marion County Auditor Maurice Clements said that although this money was collected from taxpayers it was not forwarded to the district until the situation had clarified. He said the money will be held until his office receives permission for its return to taxpayers.

GE Suspends Two After FBI Agent Testifies

Named Communists At Stormy McCarthy Hearing at Boston

BOSTON — The General Electric Co. has suspended two employes who were named Communists by an FBI undercover agent at a stormy hearing of Sen. Joseph R. McCarthy's Red-hunting committee.

Taken abruptly off the GE payroll last night were Robert Goodwin, 38, and Nathaniel Mills, 36, both long-time employes of the GE's River Works plant in Lynn.

They were dramatically pointed out as card carrying Communists yesterday by William H. Teto, 53, of Ashby, who said he joined the Communist party in 1941 at the request of the Federal Bureau of Investigation.

Fight Ejection

Goodwin and Mills nearly precipitated a riot in the hearing room when they fought ejection after refusing to take the stand to deny or affirm the accusation against them.

Sen. McCarthy ordered the men escorted out of the room by U. S. marshals when they sought vociferously to be heard but, at the same time, refused to take an oath and say whether or not they were Communists.

McCarthy said both men invoked the Fifth Amendment (a protection against self-incrimination) at a closed hearing of his Senate permanent investigating subcommittee the previous day.

Probe To Be Started

Shortly after their suspension from the GE, Essex County Dist Atty. Hugh A. Cregg announced he plans to launch an investigation against Goodwin and Mills with a view toward criminal action.

Both men were pointed out by Teto as having had access to critical products GE makes for the armed services.

ICC Okays Higher Parcel Post Rates

WASHINGTON (AP) — The Interstate Commerce Commission today authorized increases in the parcel post rates on catalogues, similar printed advertising matter and controlled circulation publications.

The advances in the catalogue and advertising matter group will amount to about 17 per cent. The rates on controlled circulation publications will be hiked about 10 per cent.

The latter publications are principally trade and technical publications circulated without a subscription charge to specialized groups.

The ICC earlier this year authorized a 36 per cent increase in parcel post rates generally, but at that time reserved a decision on the catalogue and controlled circulation groups.

Red Charges Seen as Stall For Moscow

Accusations Hurled At Dean; Meetings Written Off as 'Zero'

PANMUNJOM (AP) — Communist diplomats fired a stream of abuse at U. S. Ambassador Arthur H. Dean today instead of answering his repeated demands to explain their "fuzzy" plan for neutrals to attend the Korean peace conference.

Dean said the Red "harangue" probably was just a stall until Peiping or Moscow sends orders to Communist diplomats meeting at Panmunjon to plan the conference.

Meeting Unsuccessful

Dean said Friday's subcommittee session on composition and site could be written off "as a kind of zero."

Another subcommittee working on a starting date reported no progress.

Both are scheduled to meet again Saturday.

The Communists want nonbelligerent nations to attend the conference without a vote on major issues. They apparently have abandoned early demands that some non-belligerents have full participation—a plan exactly opposite the U.N. proposal for a meeting of only those nations which fought in Korea.

Dean's pressure on the Reds to give details of their proposal indicates the Allies might be willing to reach some sort of compromise.

He told the Reds Friday:

"You cannot expect me to consider seriously, nor to pass on to the other 16 nations whom I represent, those aspects of your proposal which are far from clear. I cannot transmit that which is fuzzy."

Role Not Clear

When he left Washington, Dean bore instructions only to "exchange views" on composition.

Dean said the Communists would not explain what observers would do at the conference.

Instead, he said, they delivered a "long, abusive, ill-tempered harangue. . . (and) attacked me for being a warmonger, having lack of faith, and trying to postpone the political conference."

"They warned me," Dean said, "that under no circumstances was I again to refer to the U. S. S. R. as not a neutral."

On the dispute over a site, Dean asked the Communists why they do not investigate facilities at Stockholm, Rio de Janeiro, Mexico City, Rome and Madrid. The Reds are insisting on Panmunjom, which Dean rejects. They have opposed Allied suggestions of Honolulu, San Francisco, and Geneva.

Meanwile, Communist efforts to woo home anti-Red Chinese and Korean prisoners of war remained stalemated with the Reds and custodian Indian command deadlocked over the number of POWs to be interviewed daily.

So far the Reds have won back only about 3 per cent.

Senator Claims Clark Has Obligation To Reveal His Action in White Spy Case

SNOWY TRIP TO SCHOOL. In sharp contrast to the unseasonal warm and balmy weather over the eastern half of the country, galoshes and scarves were a must for these high school girls as the first major snow storm this season left five inches of snow at Denver, Colo. The girls, bound for Morey Junior High School, are: (front to back) Jeanne Peterson, Rebecca Kushnir, Mary McCabe and Barbara Preuitt.

Hendrickson Will Propose He Be Called

Plans To Ask Jenner To Issue Invitation For Justice To Testify

WASHINGTON (AP) — Sen. Hendrickson (R-NJ) said today he personally feels Supreme Court Justice Tom C. Clark has a public duty to explain his role in the Harry Dexter White case.

Clark was attorney general in 1946 when White, now dead, was appointed by former President Truman as U. S. director of the International Monetary Fund—an appointment Atty. Gen. Brownell says was made in the face of FBI information that White was a Russian spy.

Brownell's charge, first voiced in a speech Nov. 6, set off a boiling political controversy and spurred a Senate internal security subcommittee investigation of communism in government.

To Press Issue

Hendrickson, a member of the subcommittee, told newsmen he would get in touch with Chairman Jenner (R-Ind) as soon as possible and propose that Clark be invited to testify.

Clark declined last week to heed a subpoena of the House Un-American Activities Committee but offered to consider questions submitted in writing. He based his refusal on the constitutional separation and independence of the three branches of government.

Truman and James F. Byrnes, who was secretary of state in 1946, similarly rejected Un-American Activities Committee summonses. Truman cited the same grounds as Clark.

Subpoena Still Stands

Rep. Velde (R-Ill), chairman of the committee, said at Cleveland yesterday his subpoena of Truman still stands. He said he planned no contempt citation against Truman but hopes the former President "will see the necessity" of appearing voluntarily.

However, a Democratic member of his committee, Rep. Frazier of Tennessee, said he sees no reason why the House groups should not leave the inquiry to the Senate subcommittee.

Truman stuck by his "no comment" position. He addressed a Young Democrats meeting at Kansas City last night but made scant reference to what he called simply the "controversy this week."

Would Not Object

Hendrickson said that, if Clark were unwilling to appear before the Senate probers, he would not object to written question-and-answer procedure. But he declared:

"If I were a Supreme Court justice who had been attorney general in this period, I would consider it

Favorable Forecast

Hunting To Begin Monday—if It Rains

COLUMBUS, Ohio (AP)—The Ohio Wildlife Council today approved opening of the pheasant-rabbit hunting season for Monday, Nov. 23, a week after it was scheduled to start.

The council said it acted because rains are predicted before Monday, erasing some of the alarm over possible forest and field fires.

However, should rains fail to materialize, the council said it would meet again Sunday and probably extend the ban on shooting which was clamped down a week ago because of the dry weather.

The council, in its final act at today's session, decided the rabbit season would not be extended beyond the Jan. 1 closing date, and that the pheasant season would close Dec. 5 as scheduled.

Pheasant shooters will have 12 days of bird hunting, the same as in 1952 when the season closed Dec. 1, the council having granted an extension of the original season when the 1953 dates were fixed.

The state parks, forests and wildlife areas, ordered close last week because of fire hazards, will open simultaneously with the hunting season if rain falls this weekend.

1955 Deficit of $4 Billion Forecast by GOP Official

WASHINGTON (AP) — The Eisenhower administration's best hope for the fiscal 1955 budget is a deficit of three to four billion dollars—attainable only if federal spending can be cut nearly six billions from the present rate.

A high administration official gave this estimate to reporters yesterday. He said that obviously a big part of any six-billion saving would have to come from national security spending, and is not yet in sight. He also said any such saving would be effected only if it could be done without impairing the national security.

Assumes Taxes To Stay On

His forecast assumed also that Congress will heed President Eisenhower's request for extension of present high corporate and excise tax rates beyond next April 1, when they are due for automatic reduction.

The informant, who stipulated that his name should not be used, gave these further forecasts:

1. The "cash budget" probably classifies as government income social security contributions, which exceed four billion dollars a year. The conventional budget does not, since they go into a special trust fund.

Ask Present Rate Be Extended

2. The administration will ask that the present 1½ per cent rate of social security tax be extended for a year. The rate is due to go to 2 per cent on Jan. 1, before Congress convenes, but some adjustment could be made to refund any money collected at that rate.

3. The administration definitely will renew its request, rejected by Congress last summer, for an increase in the national debt ceiling from 275 billion dollars to 290 billion dollars.

There is not the slightest doubt, the official said, that the ceiling will have to be raised sooner or later.

Smoke From Southern Fires Smelled in Marion

Smoke from brush and forest fires in North and South Carolina, Virginia, West Virginia, Tennessee and Kentucky could be smelled in Marion today.

The smoke was carried by a strong wind from the south, and spread as far north as the Lake Erie area. In Cleveland it cut visibility yesterday afternoon, forcing lights to be turned on ahead of time.

The haze in Ohio was only a portion of a huge bank of smoke-laden air which extended from the Atlantic coast as far inland as Indiana.

New Orleans Flooded

NEW ORLEANS (AP)—The heaviest November rainfall in New Orleans' history—nearly 8 inches—flooded the city last night and more rain was forecast for today. The torrents created traffic jams, stalled transit lines, flooded many stores, and knocked out numerous residential electric lines.

Three Korean Soldiers Flee Red Troop Unit

PANMUNJOM (AP) — Communist officers today refused a face-to-face meeting with three Korean soldiers who last night bolted from a Red troop unit and were given refuge in an American sentry box.

The three said they were South Koreans and were shanghaied into the Communist army after being captured.

The Reds insisted that the three be returned immediately, but the U.N. Command said they would be turned over to Indian custody. If they refuse to go back to the Reds all presumably would be liberated in South Korea.

An Indian spokesman for the Neutral Nations Repatriation Commission said, "No single man on the commission can decide this and it will have to be discused at the full sitting of the commission tomorrow."

Communist members of the Panmunjom joint observer team refused to appear today for an investigation to determine the identity of the three fugitives.

The three soldiers, still dressed in Communist uniforms, talked to an interpreter.

They related:

They were captured by the Communists in 1950 and 1951 and forced into the Red armies as laborers with a North Korean army unit.

After the armistice, they were among 100 prisoners who signed a petition asking to be sent back to South Korea. They were promised repatriation, but later were told they were not prisoners of war but members of the North Korean Red army.

The Koreans appeared exhausted but willing to talk.

They said they had walked from Chunghwa, five miles south of the North Korean capital of Pyongyang, day and night for almost three days to the neutral zone, where they bolted to Allied lines.

The three said they all were born near Pusan.

They identified themselves as Sgt. L. C. Song Sang King, Pfc. Tak Ha Sik and Pfc. Kil Hu Bong.

CIO Proposes Guarantee for Annual Wages

Plan May Be Used in 1954 Contract Talks With Steel Industries

CLEVELAND (AP)—The CIO today advanced the guaranteed annual wage as a major bargaining goal at its closing convention sessions.

President Walter Reuther and other CIO officers were expected to be re-elected without opposition in winding up a five-day meeting unmarked by any outward display of union rivalry.

A resolution favoring employer payment of a full year's jobless pay for workers becoming unemployed also will be considered by the 700 delegates. There was little doubt it would receive quick approval.

UAW Plans Drive

Reuter's own auto workers union has plugged for the guaranteed wage as a major aim in 1955 when its present long-term contracts with the industry expire. The CIO's other million-member union, the steelworkers, will demand the guaranteed wage in 1954 contract negotiations.

"The average worker does not know from week to week when his job will suddenly stop," CIO officers told the convention. "Yet his family still must be fed and clothed and housed.

"By negotiating guaranteed annual wage agreements from wealthy corporations, CIO unions can enable workers to plan ahead with the knowledge they will have steady incomes, thus bringing new security to workers' homes, and greater economic stability to the nation."

Can Reduce Liability

CIO leaders said employers can reduce their liability for such plans by the amount workers may receive in state unemployment compensation payments. Employers' contributions largely maintain such unemployment funds.

Management groups have attacked the guaranteed wage idea, contending it could bankrupt individual employers lacking control over factors needed to maintain year-around production and employment.

The bitter rivalry which marked last year's convention when the steelworkers union president, David J. McDonald, supported the late Allan Haywood against Reuther for the CIO presidency has been absent from this convention.

McDonald missed most of the convention sessions in what many observers regarded as a boycott intended to embarrass Reuther. But neiter McDonald nor his union has raised any convention opposition.

Reuter yesterday charted an organizing goal for a million new members in the coming year and said it could be achieved if the CIO would revive a presently "dormant" fighting spirit.

New Violence Marks Strike At Plane Plant

COLUMBUS, Ohio (AP)—New incidents of violence were reported today as union leaders renewed their peaceful picketing pleas to striking North American Aviation plant workers.

An assembly line worker, Albert Miles, 36, told police a large chunk of cement was thrown through a living room window at his home last night.

Guy Schellaci, 35, told police he received three threatening telepone calls last night, one from a man and two from women. The sheriff's office reported two incidents of nails being scattered in the plant vicinity.

Meanwhile negotiations in the 29-day work stoppage at the local plants and plants of the Sabre jet plane company in California were scheduled to resume in Los Angeles.

A radio show of the UAW-CIO Local 927 which is backing the strike appealed to union members last night to "persuade people peacefully to the justice of our cause."

Solution to Surplus Claimed

Grange Favors Return Of Food Stamp Program

BURLINGTON, Vt. (AP)—The National Grange considered a proposal today that it seek congressional enactment of a stand-by food stamp plan to feed farm surpluses to needy and low-income groups in event of a recession.

Drafters of the farm organization's legislative program at its 88th annual meeting said such a program—developed and used by the Roosevelt New Deal administration before World War II—would accomplish two desirable ends:

1. Improve living standards.
2. Use farm surpluses.

Republican Sen. Aiken of Vermont, chairman of the Senate Agriculture Committee, has long urged his party to help restore the food stamp program. Under it the needy would get surpluses at cut-rate prices.

Meanwhile, the grange convention worked over-hours in an attempt to come up with a complete farm program for presentation to Secretary of Agriculture Benson, who was scheduled to speak at the closing session tonight.

The big question was this: Will the grange program fit into the general pattern of future farm program principles as outlined by Benson in speeches and statements made since he became the GOP farm chief last January.

Benson has been highly critical of present farm price support laws, contending they tend to price products out of markets, create surpluses and bring on undesirable production controls.

Crestline Schedules Hospital Campaign

Special to The Star

CRESTLINE — Some 45 Crestline citizens gathered in the town hall Tuesday night to make preliminary plans for a $75,000 fund raising campaign for the new hospital.

The campaign is designed to raise money to supplement the $270,000 bond issue for the new hospital. Cliff E. Iman, chairman of the campaign committee, stated that the bond issue which was approved by the electorate here Nov. 3 will not be sufficient to construct the planned 35-bed hospital. J. B McCarter, M. L. Morrow, Thomas Prater and L. A West are also on the campaign committee. Mrs. Herbert Jackson was elected secretary of the campaign and J. B. McCarter, treasurer.

It was decided to place collection boxes in various restaurants and business establishments and a special meeting was planned for Friday afternoon. The campaign will be started as soon as possible, and it is hoped initial donations will be made yet this year. One donation, already turned in to the board is the site for the new hospital, a gift of Philip Kindinger, a former Crestline resident, now residing in Ann Arbor, Mich. The site consists of several acres of ground at the end of N. olumbus St.

Included in the fund-raising program is a plan to sell the old hospital building. Legal steps require the transfer of all assets of the hospital to the village, including the present building and equipment. Most equipment now used will be transferred to the new hospital and new equipment will be purchased only where there are not adequate items now available

Gold Mine for New Ideas

TV Brings Big Boom in Parlor Games

By HAL BOYLE

NEW YORK (AP) — Everybody is looking for a simple, inexpensive way to get rich without raising a sweat.

Well, we've stumbled across one possible way you can buy that gold-plated Cadillac you've always yearned for. All you have to do is invent a new parlor game half as popular as checkers.

The market is wide open. There is a big boom under way now in home games. And guess what is helping it along: Television, no less.

Robert B. M. Barton, president of the Toy Manufacturers of America, is happy to say a kind word for video, which has been denounced as a one-eyed viper responsible for everything wrong from the increase in adult delinquency to the rise in juvenile ulcers.

"At first we were afraid television would hurt us, but it has turned out to be a big help," said Barton. "Families stay at home more now. But they can't look at TV all the time—so they play more games."

Playing games is hard work for Barton, a slender, scholarly looking man who began his career as a lawyer. He heads Parker Brothers, Inc., which regularly publishes 20 to 300 different games and is the bellwether of the nation's 15-59-20-million-dollar a year industry.

"We test up to 1,000 new games each year, of which only about two per cent are put on the market," he said. "Most of them are invented by professionals, but some of the best are the work of amateurs. Sometimes the amateur is closer to the public mood."

An example was Charles Darrow, an unemployed Philadelphia heating engineer, who in 1935 invented "Monopoly," one of the most popular new games of this century. It has sold by the millions and Barton feels it will go on forever.

"Darrow retired and lived happily ever after," he said. "But what he did was roughly comparable to Margaret Mitchell's writing of 'Gone with the Wind.' He hit the jackpot.

"But usually one game, like one song or one book, doesn't make you wealthy."

"Game publishing resembles song and book publishing in many ways.

"Each game is a business gamble," said Barton. "You can spend anything from $10,000 to $150,000 marketing a new game—and lose it all. It has to hit the public, and you never can be sure what the public will like."

Barton himself recently orginated the basic idea for a new home game, "Keword," a crossword board game, and is as nervously hopeful for its success as any amateur.

"When it comes to this field," he said, "a housewife with a fresh idea may make the oldest, professional game inventor look like a beginner. She may be closer to new trends. The main thing about any game is that it must be fun."

Barton says chess is still the most popular game in the world, but is outranked 50-to-1 by checkers in America.

"I wish I had the sole rights to checkers," he said, wistfully.

A couple of other games he would like to own—if he could find a way to collect the royalties—are those old parlor pastimes, "Postoffice" and "Spin the Bottle."

"We don't have anything to compete with them," he admitted, ruefully. "The trouble with those games is the players don't need any special equipment. They're too simple—just a boy and a girl, waiting for the next move."

Seek To Avoid Primary Fight

Bricker Will Play Peace Maker Role in Ohio GOP

By REED SMITH

COLUMBUS, Ohio (AP)—Sen. John W Bricker returns home today for an increasingly important role of referee among potential Republican candidates for senator and governor

Party leaders want to avoid fights in the May primary election that could weaken GOP standard bearers who face formidable Democratic opposition in the general election net November

They look to Ercker to prevent hostilities among prospective candidates who have been maneuvering while the senator was in South America on a congressional junket studying Export-Import Bank operations.

Bricker left the tour in Argentina to return for a Masonic function in Columbus tonight Later he expects to huddle with GOP leaders over a party ticket.

Bricker, who became titular head of the party in Ohio wth the death of Sen Robert A. Taft, may have particular difficulty with aspirants to Taft's unexpired term

Congressman George H Bender of Cleveland has given strong indications that he wants to run for senator Bender has gone so far as to order his petitions printed

But a move has developed in southern Ohio for Atty Gen C William O Neill of Marietta to make the senatorial race O'Neill, who has a weather eye on the gubernatorial race, hasn't done anything to stop the talk about him for senator.

Bender, a seven-term congressman has said before he might run for senator or governor, without [illegible] barrier But Cleveland sources assert he is determined to go this time

Should Bender become "stubborn" Bricker might have trouble getting anti-Bender factions in the party to go along with his candidacy, except for re-election

And Bricker could find himself in an awkward position because of previous praise of Bender as "Mr Republican" of Cuyahoga County.

Bender received a citation as Ohio's outstanding Republican of 1952 at the annual dinner of the Ripon Club in Cleveland Taft was the guest speaker and lavish in his praise of Bender.

A stenographic repoft of Taft's remarks included these observations

"I think I am in a better position to testify to his loyalty and devotion than anyone Throughout the years, he has been my close personal and political friend Whenever a job was difficult in every one of my campaigns, I would say 'let George do it,' and he always delivered "

Bricker's telegram for the occasion said in part

"I know of no one who has been more faithful, hard working and successful in the cause of good government and the election of Republican candidates than has George He justly deserves your recognition as Mr Republican "

Presenting Bender to the gathering was James A. Rhodes of Columbus, former Columbus mayor elected last year to the post of state auditor.

Associates of Bender said he would like to have Rhodes on the ticket with him as a candidate for governor, probably because the state auditor's slam - bang campaign style is like his own

Potential candidates for governor are pledged to avoid a primary fight but apparently the agreement does not extend to the senatorial race

The situation is of especial concern to Republicans because of the prospect that Gov Frank J Lausche may seek a fifth term or run for Taft's unexpired term

Lausche appointed Thomas A Burke, former Democratic mayor of Cleveland, to fill Taft's vacant seat until after a successor is elected next November Reports persist that Burke will run for the unexpired term or go for governor depending on what Lausche decides to do

Republicans who dislike the idea of a Bender-Rhodes ticket claim Bender and Burke would overwhelm them in Cleveland and other populous Democratic strongholds They figure O'Neil would have a better chance against Burke in a senatorial race yet they all but dispair of beating Lausche despite the professed willingness of some GOP candidates to try it

The Republican State Finance Committee is awaiting a call from its chairman, Forest Williams of Portsmouth, for a meeting soon to review current figures and look at the 1954 financial picture. Members said the committee had nothing to do with shaping the party ticket Others said the holders of campaign purse strings might carry considerable weight

'Maxie the Taxi' TV Sketch 'Lifted,' Cab Driver Alleges

NEW YORK (AP)—A Bronx taxicab driver has sued comedian Eddie Cantor and others for 2¼ million dollars, charging the "Maxie the Taxi" television sketch was lifted from some of the driver's writings

The driver, Samuel Silverman, 50, contended in state Supreme Court yesterday he took his own manuscript titled 'Sitting on My Meter,' to Daniel S Mead literary agency

The agency told him Silverman said, it could not use his piece, but subsequently the sketch was televised several times on the "Colgate Hour" The complainant said the sketch was based on his manuscript.

Named as defendants were Cantor, the National Broadcasting Co, Station WNBT—TV, the Colgate-Palmolive-Peet Co, Daniel S Mead agency head, and Cantor's writers and agents

Postmasters of Three States To Meet in Cincinnati Tuesday

Two officials of the Marion Postoffice, Postmaster Homer D. Cole and Assistant Postmaster Charles L. Elicker, will attend ceremonies in Cincinnati Tuesday inaugurating the Postoffice Department's decentralization program for Ohio, Indiana and Kentucky

All 4,287 postmasters in the three-state area have been invited to attend the ceremonies scheduled for 2:15 p.m. in Taft Auditorium.

Postmaster General Arthur E. Summerfield will deliver the principal address and will swear in the nine district managers of the program.

Other speakers will include Charles R. Hook Jr., deputy postmaster general, Norman R. Abrams, assistant postmaster general for operations; Ray McNamara, president of the National Association of Postmasters; and Lawrence P. Jones, president of the National League of District Postmasters.

The glee club and Naval ROTC Drum and Bugle Corps of Miami University will also participate.

In connection with the ceremonies there will be an exhibition of the newest mechanical devices and machines to be used in connection with the decentralization program. The exhibition is open to the public from 12:30 p.m. to 6 p.m. Tuesday at the Netherland-Plaza Hotel in Cincinnati.

The decentralization plan, which is being operated on a trial basis in the three-state area, organizes Ohio, Indiana and Kentucky into a postal region with regional offices in Cincinnati and district offices in nine principal cities.

Postmasters in the three states will report to their district offices instead of to Washington, D. C., as was done under the old plan.

The program is designed to speed up postal operations and bring them closer to the needs of the public.

Marion Sermon Quoted By Church Magazine

Excerpts from a sermonette on prayer by a Marion minister, Rev. H. V Falor, appeared recently in an issue of a nationally circulated religious publication, "Christian Science Sentinel." The quotations were printed in the 'Signs of the Times" section of the magazine and were taken from a sermonette which Rev. Falor had written previously for the church page in a Saturday edition of The Marion Star.

His paragraphs were based on the Scripture passage, "Enter into thy closet shut thy door, pray...in secret, and thy Father..shall reward thee openly," declaring that while alone, giving "our undivided best to the greatest thing in the world," communion with God, "we can go forth with confidence and strength, receiving thrilling answers to our prayers as we walk in His blessed way and will." Rev. Falor is pastor of Oakland EUB Church and is president of the Marion County Ministerial Association.

We Live and Learn

There will be more disloyalty scandals before all the dirt has been swept from under the Washington rugs.

Bewildered Americans again will wonder why federal officials put public power into the hands of people whose loyalty to the United States was in question

More names will be added to those of Alger Hiss and Harry Dexter White on the list of those who were more loyal to something else than they were to their own government and their own people

What is to be learned?

The great question is not how these people stayed on the federal payroll so long but how they rose to power? What was it about their thinking that made them so attractive to the people who appointed them?

Not one of them could have won any office in his own name. They were proteges of people who had become trustees of the people's sovereignty.

Something about the way they thought made them attractive to the political personalities who shielded them.

"If I get around to writing the real story of my life in the Treasury," wrote Henry Morgenthau Jr. to Harry Dexter White's widow in 1948, "Harry will occupy an important place in the book. . ."

Dean Acheson, after Hiss had been convicted for perjury in trying to squirm away from accusations of disloyalty made by Whittaker Chambers, declared he would continue to stand by his associate.

There was a frame of mind in Washington which made loyalty to certain foreign ideas and prejudices seem more important than loyalty to the United States.

It was as if loyalty were something that could be made conditional on personal desire.

This feeling continues to be evident. It shows itself in the bitterness which follows every attempt to review a record so shocking that citizens of good faith still cannot believe their country was betrayed by U.S. employes.

There still are so-called Americans who can see nothing wrong about this and would prefer not to have it mentioned—ever.

Bottom of the Pit

Carl Hall and Bonnie Brown Heady, Kansas City kidnap-murderers of little Bobby Greenlease, have supplied a tentative answer to a timeless question:

What is the ultimate depth of human depravity?

By their own confession, these two were without compassion, morality or a single drop of the milk of human-kindness when they killed their tiny victim.

They committed an act of premeditated murder as calmly as if they had been butchering an animal. While Mrs. Heady had no direct hand in the actual act of killing the helpless, trusting child, she knew what her depraved companion was planning to do and did not interfere

It is reported by those in the courtroom that these two degenerate creatures are anxious to have it over with; that they know they have forfeited the right to live.

Their bodies should be interred deeply in unmarked graves. They also have forfeited the right to be remembered as human beings.

Inherent Right of Self-Defense

Vice President Nixon, has affirmed before a Tokyo audience that the United States is willing to restore Japanese military power and never should have destroyed it in the first place. He will be credited and blamed for opening a debate

But Nixon has opened no debate

The record shows that Nixon has done no more than repeat a policy first stated in 1951 in the Japanese peace treaty prepared by John Foster Dulles as a representative of the Truman administration.

The treaty said nothing about a mistake in destroying Japan's ability to defend itself, but it guaranteed the Japanese the "inherent right" of self-defense, which amounted to the same thing.

The United States had narrowly averted what would have been the historic error of letting the Russians overrun Europe by pastoralizing Germany under the Morgenthau Plan, believed to have been the work of Harry Dexter White.

It had not averted the error of letting them overrun China and thereby get into a position to dominate the Japanese Islands. Until the Japanese peace treaty, it had not told the Japanese they had a right to survive.

Vast sums of money have been spent since the end of World War II to keep Germany and Japan, the two most highly industrialized countries the Communist conspiracy could hope to dominate, from falling into Russia's eager hands.

The Korean War was fought for the security of Japan.

Vast sums of money will continue to be spent until the Germans and Japanese have recovered their ability to defend their own borders—the "inherent right" of self-defense

Nixon merely has said what historic precedent and present necessity have dictated shall be true.

Trail of Inconsistencies

Whole Truth Not Yet Told in White Spy Case

Whether the debate on the Harry Dexter White case may lead in the court of public opinion, it is not too early to say that former President Truman still has a good deal of explaining to do if the record for posterity is to be complete.

The facts as now officially confirmed by J. Edgar Hoover, director of the Federal Bureau of Investigation, show that the famous conference held by President Truman—with Attorney General Tom Clark, now Supreme Court justice, led to a decision to keep White on in government employ so he could continue to be watched but that Mr. Hoover did not concur in the decision when he learned of it later and urged the attorney general to help bring about White's immediate dismissal.

This was because Mr. Hoover, in a letter dated Dec. 1, 1946, had written to Mr Truman that White had been found by reliable sources — thirty different ones — to be a "valuable adjunct to an underground Soviet espionage organization operating in Washington, D.C."

-:-

THE CONFERENCE between Mr. Truman and Mr. Clark occurred just after White was confirmed by the Senate on February 4, 1946 Yet, about 1 weeks later —on April 30, 1946, when White resigned as assistant secretary of the treasury — Mr. Truman wrote him the following letter:

"Dear Mr White

"I accept with regret your resignation as assistant secretary of the treasury.

"My regret is lessened, however, in the knowledge that you leave the Treasury only to assume new duties for the government in the field of international economics as the United States executive director of the international monetary fund. In that position you will be able to carry forward the work you so ably began at Bretton Woods and you will have increased opportunity for the exercise of your wide knowledge and expertness in a field which is of utmost importance to world peace and security.

"I am confident that in your new position you will add distinction to your already distinguished career with the Treasury.

"Very sincerely yours,
"Harry S. Truman."

- -

IT MIGHT be supposed that Mr. Truman would use more careful phraseology and wouldn't be so lavish in his praise when he knew what the FBI had previously reported about White.

Even if Mr. Truman did carelessly let someone prepare such a letter for his signature, it seems incredible that the former president would repeat the same blunder nearly fourteen months later — especially when, during the period between November 1945 and July 24, 1946, the head of the FBI says that he sent to Mr. Truman "seven communications bearing on espionage activities, wherein Harry Dexter White's name was specifically mentioned."

-:-

ON APRIL 7, 1947— just eight days after Harry Dexter White had resigned from the International Monetary Fund — Mr. Truman wrote him the following letter:

"Dear Mr. White:

"With sincere regret and considerable reluctance I accept your resignation as U.S. executive director of the International Monetary Fund, effective on Mr. Gutt's return from Europe.

"I know you can view with a great deal of personal satisfaction your career in public service, crowned as it has been by your ceaseless efforts to make a real contribution to the stability of international trade and the international monetary fund, which holds so much promise to a world desperately anxious for lasting peace.

"You have filled with distinction your present assignment as United States representative on the board of executive directors of the International Monetary Fund, and your unfaltering efforts have been a source of great pride to us.

"I wish you the very best of luck and will feel free to call upon you from time to time for assistance in dealing with the problems we will be continually facing, in which your background and abilities make you peculiarly able to help us.

"Very sincerely yours,
"Harry S. Truman."

- -

MR. TRUMAN hinted in his speech on Monday night of this week that the necessity for secrecy did not go beyond the time of Mr. White's resignation from the monetary fund. The former president's exact words in his broadcast were

"Although my recent offhand comment concerning his (White's) resignation was in error, the fact is that he was separated from government service promptly when the necessity for secrecy concerning the intensive investigation by the FBI came to an end.

If that was so, why did Mr. Truman, eight days after White resigned, send him the effusive letter quoted in full text above?

Knowing what he did about White's record, was it necessary to give him a testimonial even though Mr. Truman had been told by the FBI that White was a "valuable adjunct to an underground Soviet espionage organization operating in Washington, D.C."?

Mr. Truman will hardly want to leave the record reading that way.

Welcome Home, Boys

Is Second Class Mail Press Subsidy?

By Raymond Moley

In a previous article I discussed the charge commonly made that magazines and newspapers enjoy a government subsidy because of the claim that second-class mail is carried at less than cost.

The traditional reason given by the government for continuing this alleged loss has been that periodicals are a means of education and of disseminating essential information.

The government, however, is now moving to raise rates in line with what it says is the cost.

It seems to many publishers and it seems to this writer that if we want to put a stop to endless subsidies for all sorts of good things before the nation reaches bankruptcy, we should abandon the earlier argument for preferential rates and challenge the basic claim of the Postoffice Department that rates are, in fact, lower than cost.

-:-

IN SHORT, let us decide this issue on economic, not on welfare and educational grounds.

The press cannot very well claim a subsidy for itself while it opposes subsidies for other industries. It cannot get into the position of the politician who based his campaign on the slogan, "Special privileges for all."

The fact is that, while the Postoffice Department makes a claim that second-class mail is carried at less than cost, its supporting figures need a great deal of qualification.

If we grant the common assumption that the U.S. Postal service is a monopoly, there can be no real measure of costs because there is no competitive measure.

-:-

IT IS, MOREOVER, an inefficient service, and therefore any assessment of costs for any class of mail is payment not for service but for mismanagement

Postmaster General Summerfield himself has described in plain language the wasteful, inefficient, and outmoded organization of the department.

The hard, bitter truth is that over the generations the Post Office Department has been used to subsidize political parties, to pay with jobs those who worked for the party in power.

The tradition of appointing as postmasters general the managers of the successful president's campaign proves that.

-:-

IT IS TRUE now; it was true with Roosevelt; and it was true far back in history.

The postal service is in addition used by politicians in office as a means of personal advertising through the franking privilege.

First-class mail in large part is heavily subsidized. Ninety-eight per cent of all second-class mail is entered in only 7 per cent of all post offices.

The remaining 93 per cent of post offices are maintained largely for service to the public. They do not pay their way.

A final economic consideration is something that any business firm must calculate and allow for when it raises rates or prices

-:-

IF SECOND - CLASS rates are raised beyond a certain point, a number of big magazines and newspapers will find other means of delivery. The Post Office will lose that very considerable revenue.

Such a shift probably will not reduce the Post Office deficit; it will increase it.

Meanwhile, farm journals and village weeklies, which are most dependent on postal service, would be severely pressed.

If we are going to try to terminate hidden subsidies, let us go the whole way. For those services and purposes which deserve a subsidy, let it be given under that name.

That was substantially done several years ago in the case of the shipping companies It should be done for all other legitimate claims for help.

Intermission

By TRUMAN TWILL

One of my friends wanted to know today how things are in the country this time of year. There wasn't time to make a report.

This is intermission in RFD. There's a lull. The first act ended when the trees shed their leaves and things quit growing a month ago.

The second act hasn't begun yet. It will bring a climax of winter, and if the script is well written winter will bring inches of moisture to the parched soil.

When winter finally has blown itself out with the last blizzard next March there will be another intermission while the stage is set for the rustling-of-spring scene. That's the big one.

The November intermission is one of the finest times of the year in RFD. The weather is still nice, and there's nothing to interfere with its enjoyment. All flies are in cold storage, the work is done and a countryman can take inventory at his leisure. It would be a good time to whittle a harness peg.

It would be a good time to fix fences, too, except the ground is too hard for digging holes. And it would be a good time to clean up rough corners, except there's no need to do that because winter is a tireless neatener of corners.

Pheasants come out of cover in the morning and evenings. Fallen leaves lie in kaleidoscopic patterns on ponds and the slow-moving creeks and rivers.

In the vast silences of the empty trees, the whistle of a cardinal greets the sluggish morning sun like a harmonious explosion in the half-mist of Indian summer

There is a whiff of wood smoke from a distant fire, and in the evening the rising moon seems close enough to prod with a clothes pole. Things are good in the country this time of year.

A newcomer wonders if familiarity may have bred indifference among those who have lived in the country all their lives. The doubt subsides when a farmer waves a hand in friendly greeting, or perhaps is overheard lifting his voice in song while he discs a corn field.

However that may be, it is an enchanting season in Rural Free Delivery, also known as Relax from Distraction. In the last beams of morning moonlight, the frost shines like white sequins on the broad backs of the sheep asleep in the barnyard.

There is a tell-tale smear of freshly dug earth where a groundhog has put in a few last touches on a burrow while waiting for the temperature to drop.

A tardy thistle is sending out its last signals of gossamer before signing off its broadcast for the dying year.

It's almost time for everybody to get into his chair and hold on tight for Act II. But there are a few minutes more to look up the hills and peer into the valleys—to inhale the fragrance of the clear earth and to appreciate the texture of the mantle in which it will snug down for winter.

All of which we'd have liked to report to our friend who wanted to know how things are in the country this time of year, had there been time.

Things must have been like this when the Pilgrims decided they should have a thanksgiving.

CROSSTOWN **By Roland Coe**

Home Sweet Home

By Frank Tripp

This is a report from the gripe department. Presented in the interest of fireside conversation and homey understanding. If you can resolve all of the items without scalping each other, you qualify for the $1,000 question, which is, "Who's boss around here?"

Does somebody in your house strangle tooth paste tubes? Wring their necks at the top till all the paste is at the bottom and squirts out the other end? Minor matter that can start a pretty day off screwy.

—:—

DO YOU HAVE a lady around who does lovely needlework, accumulates leftovers of silken and woolen yarn? Is her pet disposall the ashtray next to your chair?

A tossed-in cigaret butt sets up a smother like a smude pot in an orange grove. Of course you shouldn't have used the ashtray for its intended purpose

Do you get hold of the Sunday paper first, or by the time you get to it is the sports section in the dining room, the financial section in the hall, the society section in the kitchen, and has the page to which your story carried over been used to wrap the garbage? Don't blow your top' There are two outs get a disposail, or buy two papers.

- -

YOU HAD TWO car keys once; put one away carefully for an emergency Someone got there first, put the spare in her purse, where she just put the other — and made off in a friend's car, shopping. Easy does it; phone for a taxi.

The guy who sold you that sleek streamlined car made much of the storage trunk in back; room enough to take along the kitchen sink. After you've skinned three pairs of shoes, corkscrewing into the back seat, you're wishing they would put some of the room inside the car. With all the space there is outdoors, why do they do it ?

—:—

YEP, THERE WERE a dozen postage stamps last time you looked. There are still a dozen, folded glue to glue and stuck together like the 12 thieves You didn't do it but it's you who will steam 'em apart over the tea kettle. You'll find it fun.

Down at the office they can charge off their share of the help's social security tax. But for the help around your house, you can't. Silly—and a mite crooked.

You can sell a $1,000 oil bond for a $250 profit and report it as a $125 long term gain. But when you cash a $1,000 government E bond it's straight "interest," $250 profit, and no foolin'. For why? It took 10 years to earn it.

—:—

OF COURSE you and the little lady always agree on what to watch on TV, and never interrupt. Yet—

The cop had the villain cornered at the end of a hall, almost caught in "The Web," when Jonathan Blake butted in to fill his two trick drinking glasses with cigaret smoke

Fanny got sore, and yelled, "Fool' While you're monkeying with those glasses, the murderer will get away"—and he did

"I'm going to attend that broadcast sometime," I said. "What for?" she asked

"I want to switch those glasses on Blake," I told her,

"Sure," she snapped, "you've always been handy with drinking glasses" I had asked for it.

Except as herein reported, it's been a lovely fall.

The Once Over

By H. I. Phillips

Laughter Under the Goal Posts

The gods, who like to make monkeys of human beings, had fun the other afternoon in a small Jersey town. There they threw the book, via the Yale-Princeton football game, at the people who pick games they think dramatic enough for TV consideration. Football was cradled in the Big Three. Its finest traditions are woven into the fabric of the gridiron game.

You will find the epic contests, the unforgettable all-time classics in the record of Yale-Harvard-Princeton battles. Yet every Big Three game has been given the brush-off as a TV attraction for several seasons. How the gods must have roared when the Tiger and the Bulldog put on an epic battle so full of suspense, drama and electrifying thrills that it might have been especially written for TV, directed by a TV expert and designed for the sponsor who spends heavy dough for a show that will hold the customers breathless!

-:-

Class, glamor, prestige and tradition hover over the Yale-Princeton and Yale-Harvard football clashes as over no other contests on the football map, even when the teams are mediocre.

They always have something not necessarily found in the games chosen for TV through considerations of locality, precision football and the big betting-pool games.

Yet they were given the deep-freeze treatment and a fan looking for a Big Three clash on a Saturday might as well be a Hottentot on a sea-lion hunt. "Only the game that figures to be the big TV show!" seems to be the slogan. But last Saturday Yale and Princeton put on a drama-packed, nip-and-tuck, hell-for-leather contest that will be talked of long after every other game this year is forgotten, come hell, high water or Michigan versus Michigan State

It was really Dragnet with helmets and shoulder harnesses It had all the features of "From Here To Eternity," "Frank Merriwell" and "This Is Your FBI."

-:-

What goes? To give the Big Three games the heave-ho because many colleges have come up in the past few years with better and tougher teams is like saying that Shaw shouldn't be read any more because Mickey Spillane has developed a tremendous following.

It is like holding Toscanini recitals have no place in the picture against juke-box recitals of "Doggie in the Window." Traditions still count. Sentiment is not ash can stuff. There is more color to any Big Three game than TV schedule makers concede. Football as an institution can use the spirit of these contests, good, bad or indifferent.

-:-

This week the annual Yale-Harvard football game, famed for generations, will pack the bowl but it was on no TV schedule when this was written. Unimportant? Locale in the cradle of American football inadequate? Lovers of football not interested? Quick, Watson, the needle! And see if TV is showing Wyoming versus New Mexico or Oberlin versus Denison.

It is just possible that Harry Truman, in those morning walks, made the coming Macy parade anti-climatic. And speaking of the Macy parade we hear an effort is being made to get Mossadegh into it.

A dog food corporation will sponsor Kukla, Fran & Ollie on Sundays and it will be half an hour before another dog food program "Zoo Parade" comes on the air. This Sunday atmosphere can put us into a mood where we will start scratching our right ear with our left foot.

If New York really means to clean up the Times Square area as threatened, a beginning might be made with those movie houses in its very heart which for years have specialized wholly in movies aimed at the lecherous mind and which have been distorting the minds of kids with minimum interference from the city?

Hears 1,200 Claims Weekly

Industrial Commission Big Insurance Handler

By BILL TERRY

COLUMBUS, Ohio (AP) — The State of Ohio operates one of the largest accident insurance businesses in the country.

Every day, six days a week, it receives on the average of 1,200 claims. The state's accident insurance setup, known as the workmen's compensation fund, pays out about 40 million dollars a year in benefits for everything from a finger cut at work to loss of life while on the job working for a participating company.

The fund is administered by a three-man industrial commission appointed by the governor Richard W. Morse is chairman, J. Maynard Dickerson vice chairman, and W. T. Blake the third member.

The fund covers 2½ million workers for 104,000 Ohio employers including governmental units. Not covered are railroad and maritime workers.

Some 167 Ohio companies have their own accident insurance setups. They include the large steel and rubber companies, Ohio Bell Telephone Co., and most insurance companies. Back in 1916, when the state setup was but a few years old, there were 1,645 "self insurers."

The fund was set up after a commission of five appointed by the then Gov. Judson Harmon found 80 per cent of workmen injured or killed at work in 1911 received no benefits.

The legislature changed this, and today an injured workman can received up to $32.20 a week for time a legitimate injury keeps him off the job plus unlimited medical expenses for approved claims. Weekly benefits are computed on the man's average weekly wage for te previous year.

The fund paid $120,000 for medical care alone to a Cincinnati man who was in a coma for eight years after an industrial accident.

A worker permanently injured through loss of a limb, eye, etc. is entitled to compensation in addition to that paid for lost time. Permanent and total disability entitles a worker to benefits for the rest of his life, while death benefits paid dependents can add up to $9,000 a year. This is more than 10 times the average death benefit award by courts in 1911.

Most of the claims filed are routines ones that are paid off without any fuss. Everyone agrees the claim is just, and a check is in the mail within 6 or 10 working days. In 75 or 80 per cent of the cases no lost time is involved and average medical cost is $14 or $15.

Employers contribute to the fund on the basis of their payrolls, estimated demands on the fund, and the amount of hazard to workers in their plants. If a plant has fewer and less severe accidents than others in its category it gets a merit rate. Rates are refigured every year and go into effect July 1. For the state they total about the amount paid out in claims and for administration, about 40 million dollars.

Every employer with 3 or more workers, except railroads and the maritime service, must be covered. Employers with fewer than three workers can get coverage if they wish.

If a worker is injured in a plant that should have coverage but doesn't, a rare case, he can file a claim with the commission or file a civil action. The commission says such claims take much longer to conclude than do regular ones.

An employer reaps this advantage from contributing to workmen's compensation—he can't be sued for damages because of injury or death due to an industrial accident while on the job.

Throughout the years the fund has paid out about 750 million dollars in benefits.

Ohio Firms Involved

Chiseling on Navy Contracts Alleged In Hearing Before House Committee

WASHINGTON (AP) — A former Navy inspector said, in testimony just released by a congressional committee, that the Clark Grave Vault Co. of Columbus painted over rust on rocket heads and bands which it made for the Navy.

"They could not seem to keep the rust off them," Mrs. Mary Elizabeth Reshan testified before the House subcommittee on military operations.

"Once they got painted over the rust, it did not do us any good to holler about it. We girls stormed about it, but there was nothing we could do about it."

Mrs. Reshan said she observed this while working as a Navy civilian inspector last year.

On the other hand, Lt. Comdr. A. J. Raitch, a former assistant inspector for Navy material in Columbus, testified an investigation showed the rust had formed after—not before—the parts were painted.

He told the subcommittee he had received complaints about the rust from the Navy at Hastings, Neb., where the rocket parts were shipped.

Investigation showed, he said, the rust occurred during long storage at Hastings. The problem later was eliminated, he said.

Mrs. Reshan's testimony came at a hearing last Friday, devoted mainly to the topic of the Navy's purchasing large shipments of poor quality wiping rags for guns and machinery.

Former employes of the firms described the practice as deliberate. Firms named were: Leshner Corp. of Hamilton, Ohio; Sanitary Wiping Cloth and Burlap Co. of Wilkes-Barre, Pa.; and Grossman & Sons of Columbus.

Mrs. Reshan said she spent part of her time inspecting at Grossman in Columbus and the rest working at Columbus Grave Vault Co. and the Columbus Stamping and Mfg. Co., both of which she said were making rocket parts.

She was asked if she had any difficulty about imperfections passed over her objection at Columbus Stamping.

"Well, not too much out there," she replied. "I had quite a few arguments with the company itself about it and they would get awful mad at all of us. But I think they finally realized after so many rejections they could not get away with that kind of works."

With respect to the wiping cloths, Investigator William Ellis of the general accounting office told the subcommittee the Navy had purchased 13½ million worth in the last three or four years.

The price, he said, should have been 13 cents a pound, but because so many poor rags were mixed with the good ones, according to his testimony, the Navy was paying nearer to 60 to 65 cents a pound.

The president of the Leshner Corp. of Hamilton, Boris Petricoff, said one trouble was the Navy paid about half what other consumers pay for wiping rags.

Subcommittee members then observed his firm did not have to sell to the Navy at all, that the contracts were let on open bidding.

Subcommittee Counsel Paul Cotter asked Petricoff: "Did your company ever resort to deceit on the Navy in getting bales inspected and in shipping inferior materials?"

Petricoff: "As president of the company I should know everything that goes on and I think I do, but I do not know about what 50 foremen will do."

Pressed for a more direct reply, he asked: "You want to know if in our company anybody uses shady tricks?" Then he answered he had instructed his foremen to see that the girls made the cloths so they would be approved by the Navy.

He denied, in answer to another question, that employes received a "reward" for passing bad rags. Later, he said:

"I can tell you gentlemen there are bad actors in our industry. I am sorry I am enmeshed with the rest of them, and if I am guilty I am sorry."

One of Petricoff's employes swore to a statement about Leshner's operations. His statement—the man himself was not named—was introduced into the subcommittee's record by Wilbur B. Ness, general accounting office inspector at Louisville.

Describing himself as a bale weigher for Leshner, this employe said the superintendent of the plant, Harry Tobin, instructed him to add one pound to the actual weight of each bale for the Navy. Bales for other customers, he said, did not have the pound added.

Tobin, he said, explained this pound was allowed for a certain special way of handling Navy materials, "but it didn't make sense to me."

Two other Leshner employes—Esther Gamboe and Rachel Hibbard—followed "the same practice," he said.

All of the bales, he continued, contained a mixture of silk, nylon, rayon, overall tops, wool clothing, curtains and drapes. It was a common practice, he asserted, to show Navy inspectors good cloths, then slip poor cloths into the shipment.

In the winter of 1949-50, he continued, the Navy sent back a shipment of rejected cloths. The company handled this, he went on, by turning the bale covers inside out and reshipping the same poor cloths to the Navy.

Investigator Ness also read into the record a statement by a Mr. Whitehurst, a Navy inspector at Norfolk, Va. Whiteburst said that about half of the wiping cloths shipped by the three firms under investigation were of poor quality. The worst, he said, were from Leshner Corp.

Bucyrus Will Regulate Junking of Ice Boxes

Special to The Star

BUCYRUS — City Solicitor Robert L. Brown has been instructed by city council to prepare legislation regulating the storage or junking of old boxes and refrigerators.

Council authorized preparation of the legislation following a suggestion by the Bucyrus Junior Chamber of Commerce that steps be taken to eliminate the possibilities of Bucyrus children suffocating in abandoned refrigerators.

Councilman Clinton Ackerman reported that he had received several complaints of abandoned ice boxes being left in alleys and, in some instances, near sidewalks. Police Chief Arthur L. Stuckert reminded councilmen that any regulatory ordinance should cover ice boxes and refrigerators in junkyards.

Truman Mum On Spy Case In Kansas City

Ignores 'Controversy' In Dinner Address To Young Democrats

KANSAS CITY (AP)—Harry S. Truman had the time, the place and the audience last night to add verbal fire to the Harry Dexter White controversy, but he didn't.

Thus it was the former President stuck to his oft-repeated statements he would have no more comment to make in the blistering crossfire of carges arising from the issue.

He spoke briefly to about 350 members of the Jackson County Young Democrats Inc., at a dinner meeting. They cheered him. He smiled, said he was happy to be there.

Once he referred to the "controversy this week" and then read from several of the telegrams he had received after his speech Monday night.

That was when he replied to charges of Atty. Gen. Brownell that he kept the late Harry Dexter White in government service when he knew him to be a Communist spy.

One of the telegrams, he said, "Give 'em hell, Harry. The newspapers need the money."

Earlier, in his off-the-cuff speech he had said the Democratic party has "no outlet for facts in this country, with 90 per cent of the newspapers against it."

The former President also told the Democrats:

"Since the time of Jefferson the people have tried to keep the government out of the hands of special privilege. The Democrats always have tried to do this, but we didn't succeed very well last year.

"What we need to do is to set our house in order here at home, and we must have a vigorous Democratic organization to present the facts to the people of the United States. If we do, after the next election we can have forward-looking men in Congress."

Truman apparently had anticipated that some in the audience would expect him to say something stronger on the White controversy.

But as he left the banquet room, he saw a newsman at a telephone.

He smiled, put his hands on his hips, and said:

"Ha! I fooled you, didn't I?"

a public duty to try to clear it up."

Jenner has indicated he feels any decision to call the Supreme Court justice now would be premature.

While Republicans made plain they intended to push ahead with the probe, Sen. Olin Johnston (D-SC), a member of Jenner's subcommittee, said in an interview Congress instead ought to be investigating rising interest rates and falling farm income under the Eisenhower administration.

'Water Over The Dam'

Of the investigation of the Truman administration's handling of Communist infiltration, Johnston said: "It's water over the dam. It's a subterfuge for misdeeds of the present administration."

Hendrickson said he also intends to renew his suggestion that Truman be invited to appear before the Senate subcommittee.

The subcommittee's hearings are in recess until Monday, when the Justice Department has been asked to supply the dates on which FBI reports on spy suspects in the Treasury Department were sent to top officials.

Both Hall and Mrs. Heady, the once-respectable housewife who took to drink, pleaded guilty at their arraignment Nov. 3. Marion Man Suffers Burns In Home Fire

A Marion man received second degree burns on his face and hands last night when he picked up a burning chair in his home and threw it down the stairway.

Firemen said M. E. Peterson later told them he and his family were sitting in the living room when he smelled smoke coming from upstairs. He ran up the stairs, found an upholstered chair burning in a bedroom and in an attempt to keep the fire from spreading carried it to the head of the stairs and threw it down.

Fire Chief Owen A. Sifritt said this served to spread the fire to the stairway and to the first floor at the bottom of the stairway. Called to the residence at 242 Jefferson St. at 7:51 p.m., firemen from the Central station soon had the blaze out and gave Peterson first aid treatment for his burns. They estimated total loss between $1,500 and $2,000.

Chief Sifritt today cautioned that burning furniture in a home should not be moved. Proper action to take in such an event is to first close all doors and windows in the room where the furniture is located and second call the fire department immediately.

City firemen made only one other run during the last 24 hours. This was at 7:40 a.m. today when Central Station firemen went to McKinley Park to douse a fire in a hollow tree just opposite Edgewood Dr. Firemen reported the blaze evidently began from sparks from leaves burned in the park yesterday by park custodians. No loss was reported.

secretary included in administrative expense, he said.

The report rapped payments to Pretzman at "the same hourly rate for secretarial work that is paid his law firm for legal services."

Rhodes, in a summary of the report, said:

"The audit discloses that the fee of the legal secretary was set at $75 for a six-hour day, or $12 50 an hour, and during the last audit period included such items as telephone conferences with the secretary, working on the annual report, trips to the courthouse to check entries and writing letters."

Identifying the legal secretary as Pretzman, Keller said the report showed some adjustments between the $75 daily rate and the $50 a-day prevailing rate.

The report also criticized payments to District Treasurer C. T. Lindbloom who also is chief engineer—at the same hourly rate for "routine bookkeeping" as for engineering services.

These Days

By George Sokolsky

The attempt to foist responsibility in the Harry Dexter White case upon the FBI will fail because of the law, the operations of the FBI and the facts. The FBI got into this particular situation by sending a routine report to the president, Harry Truman, and to the attorney general, Tom Clark, now a justice of the Supreme Court.

SOKOLSKY

A routine report from the FBI is never a brief, an opinion, an obiter dictum, a decision. It is the product of investigation and evaluation.

The FBI is not a police force, a Gestapo, or an NKVD.

-:-

IT MUST BE remembered that the FBI is not the sole investigative agency of limited jurisdiction; the Secret Service, the Narcotics Bureau, the CIA, the Immigration Bureau are similar agencies performing specific investigative duties.

Spies, saboteurs, subversives come under the charge of the FBI. A raw file is kept into which go all kinds of data, some of value, some at the moment worthless, some hard fact, some rumor, hearsay and gossip.

Information comes to such an agency as the FBI from many sources: its own operatives, undercover agents who voluntarily risk themselves to serve their country; citizens who write letters, co-operating police forces, crackpots who hate individuals, etc., etc.

-:-

ALL THIS material needs to be evaluated and the evaluation corroborated by skillful persons who know the entire subject matter into which the particular individual under investigation fits.

When a report is sent to a president, an attorney general, or to the head of some other department of government, it is not a formal complaint for indictment such as a local police department might make to a local prosecuting attorney.

It is merely a statement of fact up on which the president or the attorney general may or may not decide to act. Such reports are routine.

The FBI is not an information bureau to which a citizen can apply for information. It is the investigative agency of the Department of Justice.

-:-

IF A CITIZEN desires information, he should go to the Department of Justice. In some matters, such as an annual report on crime in the United States, or the rise and fall of juvenile delinquency, or the nature of the Communist conspiracy, J. Edgar Hoover issues reports to the public, makes speeches and writes magazine articles, but the FBI never opens its files to anyone.

Although some citizens are willing to cooperate with this agency, they find that this does not entitle them to a reward in the form of a quid pro quo.

It is important to note that since J. Edgar Hoover has been at the head of the FBI, it has not once been involved in a scandal; it as not once been involved in a leak; no subversives have been found to have infiltrated it.

-:-

ATTACKS on the FBI have been few. The worst is a book by Max Lowenthal, entitled "The Federal Bureau of Investigation," which seems to be a spite book.

Max Lowenthal is a close friend of Harry Truman; in fact, he is reputed to have been responsible for maneuvering Truman into the vice presidency.

It is known that Harry Truman has been antagonistic to the FBI for several reasons, including the Kansas City election frauds case in which the ballot boxes were destroyed by an explosion, thus eliminating the principal evidence.

Max Lowenthal, Truman's friend, devotes a 559-page book to an attack on the FBI and particularly Hoover.

-:-

HE SUMMARIZES Truman's dislike for Hoover in this paragraph:

"There are some indications, however, that the views (praising Hoover) are not universally held by Americans interested in effective counter - espionage. President Truman, when he set up the CIA (Central Intelligence Agency) as a new espionage and counter-espionage organization, disregarded suggestions that Mr. Hoover himself should become the head of any such super-intelligence organization.

"In 1950, when the President made a new appointment to the post, he again disregarded the suggestions that Mr. Hoover be promoted to that position. Indeed, when the President created the CIA he went further and withdrew from the FBI the authority it had possessed for seven years in counter - espionage work throughout Central and South America."

The Harry Dexter White case, like the Alger Hiss and the Rosenberg cases, establishes the fact that the FBI has been alert while the White House was concerned with a cover up.

Doubt Is Cast Over Changes In Taft-Hartley

Too Much Political Heat on, Is View of Congressional Leader

WASHINGTON (AP)—Rep. Barden (D-NC) said today he expects the next session of Congress to produce political storms which will greatly lessen prospects for revising the Taft-Hartley labor-management law.

"The time for operating on that patient," he said in an interview, "was when there was little heat, excitement and confusion."

And Barden, who is the senior Democrat on the House Labor Committee, predicted there will be plenty of excitement in Congress with elections coming up next year.

He said he would not hazard a guess on whether the administration will be able to make good on President Eisenhower's recently renewed pledge to overhaul the Taft-Hartley Act.

Barden said he wasn't disappointed by failure of Congress to act on suggested changes in the law last spring or summer. But he indicated he had expected the administration would push for congressional action.

"I didn't know we were going to hold these lengthy hearings, let everybody and his brother come up and testify, and then just 'whish' it off the board," Barden said.

Barden said the labor-management problem is so many-sided that it is impossible for members to steer a safe political course through it.

"No matter how you vote on the various phases of the law," he said, "you are bound to meet with criticism. You will catch hell if you put something in it and you will catch hell if you leave something out.

"And with the elections coming up, it is going to be brutal to put some of these fellows on the spot."

Quick Leap Saves Man When Trench Caves In

YOUNGSTOWN, Ohio (AP) — A young pipelayer saved his life yesterday by leaping into the air when a 13-foot ditch in which he was working began to cave in. A companion died, however.

The high jump by William Braun, 20, enabled him to keep the top of his head above the sliding earth that more than half filled the ditch. Other workers spotted his hair and quickly scooped the dirt from around the rest of his head. He was unconscious.

Ray Baer, 19, was dead, however, when removed from the ditch. A large rock had struck him on the head, crushing his skull.

Alexandria, Va., To Get Historic Fire Truck Back

BALTIMORE (AP)—The chances of Alexandria, Va., getting back the old fire pumper George Washington once presented to one of its fire companies appeared assured today.

The Baltimore Fire Board agreed to lend the squatty, 189-year-old engine to Alexandria officials for as long as they keep it on display in Friendship Firehouse, soon to be dedicated as a national shrine.

The loan is still to be approved by the Baltimore Board of Estimates.

Baltimore acquired the engine from a Frederick junk dealer in 1849 and it has been on display in the Washington Monument here.

Inside Labor

By Victor Riesel

CLEVELAND

Along with roaring demands for the resignation of Attorney General Herbert Brownell "because of malfeasance" and amid an almost revivalist fervor in support of Harry Truman, the CIO has unleashed the most slashing attack yet made by a powerful organization on the government's counter - espionage program.

RIESEL

Embittered by criticism of the man who was labor's most powerful White House ally, the CIO bluntly charges at its annual convention:

"To date, no single instance of espionage, or of improper use of documents, has ever been disclosed by these loyalty and security investigations."

The "time of thousands of FBI agents continues to be wasted," the CIO leadership here adds in its criticism of the federal loyalty program.

-:-

THEN, EXPANDING its scope to hit at the Army, Navy and other intelligence forces' screening of workers in such plants as General Electric's atomic labs, the CIO charges, "The program for screening security risks out of defense plants has likewise deteriorated.

"Full authority to bar loyal workers from defense plants has been given to military officers around the U. S. without even the right of appeal to a civilian board in Washington. Secret informers have been given full away and the historic rights of American workers have been placed in jeopardy."

This is followed by a demand that the military's authority over this counter-espionage be removed from the Defense Department, and turned over to a civilian board.

-:-

THERE IS ALSO a request that the "Security program in defense plants be modified (and that) the use of secret witnesses be discontinued."

It seems obvious that the CIO is moving into position to head off the announced Republican attack on the Democrats on the Communist infiltration issue.

This seems to be a reply not only to Brownell but to GOP National Chairman, Len Hall.

The reasoning goes somewhat like this:

The Republican's most effective campaign material has come from the investigations of Sen. McCarthy, Sen Jenner and the House Un-American Activities Committee now headed by Representative Velde.

-:-

HOWEVER, not until the Republicans took over this year and had time to run through the vast files accumulated by the FBI over the past 20 years, has the GOP been able to hit out officially, with the impact of the government behind it.

If the Justice Department can unfold this as a running story between now and the 1954 elections, it will obscure all the counter-charges the Democrats and the labor people are unloosing against industry and President Eisenhower. Furthermore, until the Brownell charges, Harry Truman was expected to be the most effective Democratic campaigner next year.

Labor's political strategists had hopes of using him to smash the slight Republican majority in Congress. Now all this may be neutralized by the government's official blasts at Mr. Truman.

-:-

SO THE CIO position now runs along these lines:

"Russian aggression and its tool — the world wide Communist movement — continue to present this nation with the difficult problem of reconciling the demands of National Security with respect for the Civil Liberties of individuals.

"The Communist movement in this country poses no threat to subvert the government. It serves rather as a recruiting ground for spies, and, peraps, saboteurs. This is a treat to be met by police detection and rigorous enforcement of the criminal laws, not by undemocratic restraints upon speech or belief. It is what these people do, not what they say or think, that matters."

-:-

THEREFORE, the CIO officially calls for the revision of the Smith Act and the Subversive Activities Control Act so that only actual espionage and sabotage and not the "speech, advocacy or belief" promoting any philosophy is punishable.

Anything else will lead to "hysteria", the CIO charges — and the kind of criticism levelled by Mr. Brownell against Mr. Truman. And the CIO does not hesitate to blame President Eisenhower for all this.

So, you have the political battle lines laid out for 1954.

Slow Burn

By Laura Hobson

"No Smoking" signs in absolutely fireproof places always burn me up and sometimes I comfort myself by remembering about Steinmetz and General Electric.

HOBSON

Charles Steinmetz, who died in 1923, was an inventive genius, consultant engineer of GE, responsible for over 100 inventions and many scientific works. He was also a smoker of cheap cigars.

Not a take-it-or-leave-it smoker, but a dedicated, passionate, morning to night smoker.

His thirty brilliant years with GE began in 1893, and on the very first day in his new job, he went to his office or lab, and found a large "no smoking" sign there.

-:-

HE WALKED OUT. Behind him he left a note: "No smoking — no Steinmetz." GE rescinded the rule.

Not all of us are inventive geniuses who can swing our weight that way, and I, for one, am enough of a law-abiding citizen not to sneak a quick drag in a place where it's forbidden.

But I do wish there was more uniformity and more sense in the no-smoking rules all around the nation, so a person could get to adjust and stay adjusted.

In any crowded nightclub anywhere, for instance, where a fire could be a killer for fair, there are cigarette girls all over the place and no prohibition on smoking till the air is blue.

But in the cement and steel and brick movies of many states, where an acetylene torch would be needed to ignite something, you sit there watching Lauren Bacall or Gregory Peck light up on the screen and your throat aches in desire, but no smoking.

-:-

IN MOST large cities now, all the department stores have signs everywhere that forbid smoking. But just go buy a pair of shoes in most good stores from New York to Beverly Hills, and right next to the elegant sofa or chair they seat you in, is a fine upright metal ashstand. Right in the open — and all around the department.

What for? It must be to test your character. Or play games with your will-power while the fellow on the footstool slips on a pair of evening sandals with $42.50 on the sticker.

Don't think I'm yapping about all no-smoking rules everywhere. Apart from actual fire-hazards which any non-moron respects, I also respect the rights of any smoke-detesting citizen to be able to see a show without having a cigar-lover right in the next seat.

-:-

THAT'S WHY I never buy orchestra seats, and either climb to the balcony or pay extra tariff for the loge, figuring that the additional thirty cssmyextra tickhtlat eene al thirty cents is my extra ticket for that cellophaned pack in my purse.

But then to have an usher tap me lightly on the shoulder and whisper a huge stereophonic "smoking not allowed" really does give me a jolt. The next time I travel, I'm going to ask the automobile club not only for lists of restaurants and motels but for a nice colored map of what I call "the no-smoking states of the union." Got a light, please?

Epworth To Observe Anniversary of 'Our House'

Special Program Sunday Night Will Celebrate Twelfth 'Birthday'

Celebration of the twelfth "birthday anniversary" of the Epworth Methodist Church's youth center, "Our House," on S. Vine St. will be marked by an extensive program of activity by the young people of the congregation Sunday.

The property which became the church's youth center was purchased by church officials in 1941. Known as the "old Runyan home," the house when acquired by the church had stood already for more than 100 years. An enthusiastic group of young people from the Youth Fellowships then went to work to remake it into a suitable place for their programs of worship, recreation and study.

EPWORTH METHODIST CHURCH members active in affairs of the church with special interest in "Our House," Epworth youth center which is celebrating its twelfth "birthday anniversary" Sunday, is shown above in the "Upper Room" chapel of the house. Appearing seated, left to right, are Mrs. George Lane and daughter, Virginia, Mrs. Tom Ballinger, at the organ, Miss Margaret Huffman, director of Christian education of the church, Stanley Moore and daughter, Cynthia, Mrs. Moore, and Carol Yinger. Standing, left to right, are George Lane, Tom Ballinger, Rev. W. C. Eyster, Miss Onda Minshall, and Richard Lawrence.

A CHAPEL known as the "Upper Room" was constructed on the second floor, and dedication of a new "art window" in the chapel will be a special feature of the anniversary celebration.

Of interest not only to the church and its young people, the small house is a community landmark, and has particular significance for one Marion family. One hundred years ago Dec. 12, 1853, the late Daniel Francis Lawrence, eldest child of Nicholas and Hannah Kelly Lawrence, pioneer settlers in this county, was born in the front room of the house. His death occurred in 1935 at the present family home where daughters live at 555 Avondale Ave.

The special Youth Day at Epworth Church which will climax with the "Our House" celebration, will include a Harvest Home Ingathering for the Lima District Youth Fellowship Booth Festival next weekend. Epworth's participation in this annual event will be in charge of Tom and Marilyn Guy Ballinger.

With supervision of Robert Bush, and help of Church School teachers and other adult leaders, Girl and Boy Scouts, children's groups of the church, and Youth Fellowship members will call in the afternoon on church families for donations of cash or commercially canned foods which will go to the Methodist Children's Home at Worthington or to Flower Hospital, Methodist institution, at Toledo.

ON THE COMMITTEE with Mr. and Mrs. Ballinger will be Mary Lou Faulkner, James Wilson, and Linda McArthur. At 5:30, all groups will make final reports and a prize will be given the one bringing in largest total contribution. The booth which will be used at the booth festival will be set up in the west vestibule of the church Sunday morning.

At morning worship hour a part of the time will be given over to an original story for children given by Miss Margaret Huffman, director of Christian education. In this she will incorporate the ideas and purposes of the ingathering in preparation for the afternoon's effort. The offering received at the service will be given toward the Booth Festival quota.

Celebration by the young people of the "Our House" anniversary will be from 7 p.m. until 10, with open house for all members and friends of the church. There will be fellowship and reminiscences, and typical refreshments of popcorn and apples which have become traditionally associated with "Our House," a program and a special "birthday" cake. Offerings will be placed in an "Our House" replica bank which was made by the late John Bain who was a trustee.

RICHARD LAWRENCE, president of the board of "Our House," will be in charge of the program at 8 which will include a brief history of the house and showing of moving pictures taken at the original dedication. Stanley Moore, the first president, will present this feature.

Groups of those attending will then visit the chapel to view the new art window work, and take part in its dedication which will be conducted by the pastor, Rev. W. C. Eyster. This will be repeated for each group. The window was designed by Miss Onda Minshall and painting was done by several young people.

On display also will be the yard, a portion of which has been made into a kindergarten playground for use by the Epworth week-day kindergarten and by the kindergarten sponsored by the Marion Junior Service Guild which is held at St. Paul's Episcopal Parish House nearby. This work has been done by the board of "Our House" as one of its many services rendered for children.

The birthday cake ceremony with lighting of candles will be directed by Miss Huffman with a group of children taking part, and the event will close with group singing of "Moon Over Our House," an original song by Dennis Gompf.

Truck in Galion Runs Over Girl

13-Year-Old Struck After Leaving School

Special to The Star

GALION — Barbara Callender, 13, of Galion is resting "fairly well" in Galion City Hospital today after being struck and run over by a truck Thursday afternoon at 4.45.

She was struck at the corner of S. Union St. and Grove Ave. as she was returning home after school. Police reports show she and two other schoolgirl companions, Mary Anne Cole and Linda Ruth, were crossing from the north to south side of Grove Ave.

A truck driven by Claude Britton, 72, of Galion made a left turn [illegible] on to Grove Ave. from S. Union St. striking the girl. Police said she was thrown to the pavement in front of the truck, and was then run over.

X-rays were taken this morning to determine the extent of the girl's injuries. Police are investigating the accident. The injured girl is the daughter of Mr. and Mr R. A. Callender.

About 58 per cent of the rural road mileage in the United States is surfaced.

Mt. Gilead Council Approves Addition

Special to The Star

MT. GILEAD — The plat for a new subdivision in Mt. Gilead was accepted by the Mt. Gilead Council at its regular meeting this week.

The new addition to the village includes about 12 acres of land owned by John Cotner, president of the Hydraulic Press Manufacing Co. It is located west of Westview Drive and north of the Cotner home on the Marion Road, and is now an orchard.

Cotner stated that plans for its development include the building of three roads running east and west and the clearing of trees this winter. Water, gas lights and sewage disposal will be made available to about 20 lots. No building will take place before next spring or summer, Mr. Cotner stated

The plans for the subdivision [illegible] were presented to Council by George Daniels.

The council also approved an ordinance allowing an increase in gas rates. The new rates will increase the cost to the consumer by 15 per cent at the end of a five-year period, according to officials of the Gas Company. Company officials present at the meeting included Walter Betts, Columbus, G. K. Galiant and Charles Lawrence, local company manager.

The transfer of $25.000 from the waterworks construction inactive fund to the water works construction active fund was made. The following motion concerning sewer construction was passed.

Traffic Survey Fund Drive Is Moving Slowly

Progress of a campaign to raise some $12,000 to help pay for master engineering traffic survey for Marion was reported moving slowly today by John V. Ruth, chairman of the fund raising committee.

The committee is divided into various sub committees and the chairman of each division is conducting his portion of the drive at his own convenience.

Ruth said Odell Thompson, chairman of the retail merchants division, has reported collection of slightly more than 50 per cent of his division's quota while Russell Butterworth, chairman of the professional men's division has reported collection of some 30 per cent of his goal.

Total collection of all divisions have reached between 15 and 20 per cent of the $12,000 needed, Ruth said.

He added that because of the slowness in raising the necessary amount he may call the committee together next week and ask for reorganization in an attempt to speed up the campaign. He also pointed out that the committee deliberately did not attempt to solicit funds during the last month so as not to conflict with the fund raising campaign of United Appeals.

Ruth's committee is charged with raising $12,000 from private sources to pay the major share of the cost of the master traffic survey. Total cost will be some $20,000 City Council previously appropriated $6,000 and the County Commissioners $2,000 as their share of the total cost.

Bible Words to Live by

JOHN 17:20—"Neither pray I for these alone, but for them also which shall believe on me through their word; . . ."

* * *

My father died during the depression years, while I was in college. Shortly thereafter, I was faced with a problem, about which I wrote my mother and asked her to pray for me. She replied, "Son, your father and I prayed for you before you were born and I am praying for you now." To know that my parents prayed for me before I was born was a source of great encouragement.

Today as I try to face life's many perplexing problems, it encourages my soul to remember that my Lord prayed for me centuries before I came into the world. To remind myself that Jesus included me in his prayer in the face of the Gethsemane and Calvary experiences is most humbling, yet strengthening, encouraging and motivating to my soul to press on to the realization of higher things in life. How grateful I am for Christ as my Saviour who, even today, is at at the right hand of God mediating for me.

Must Prove Intent

Prosecution of Spy Cases Difficult Job

By JAMES MARLOW

WASHINGTON (AP) —If Harry Dexter White were alive today the government would have as much trouble trying to prosecute him for spying as it has had with others — and for some of the same reasons.

Miss Elizabeth Bentley and Whittaker Chambers, admitted messengers for a Soviet spy ring in Washington, years ago named more than two score government employes as agents for Soviet espionage.

Not one of the 47 named by Miss Bentley has been brought to trial on a charge of spying. Yet, their alleged spying was in wartime and they could be tried any time afterwards if the government could make its case stand up in court. The penalty for wartime spying is death or up to 30 years in jail.

None of those named by Chambers as having supplied him with information for Moscow could be tried now. Their dealings with Chambers, who quit the Communist party before World War II, were in peacetime. A man accused of peacetime espionage must be tried witin 10 years of the alleged crime or not at all. The penalty for peacetime spying is up to 20 years in prison.

One of those mentioned by Miss Bentley, William Remington, was found guilty of perjury in testimony he gave, denying Communist tieups. He was never tried for espionage. Alger Hiss, named as a spy by Chambers, was found guilty of perjury too. He was not tried for espionage.

Miss Bentley named White as one who supplied information during the war. She did not claim to have received documents from him directly. But she said she got them through others on her list of 37 sources of information for Russia.

If White were still alive and the government therefore tried to prosecute him now on a wartime espionage charge, it would face the same difficulties which have stymied it in trying to proceed against others named by Miss Bentley.

In trying an accused on a charge of deliberate espionage, the government must produce at least one witness against him, plus circumstantial or positive evidence, such as documents; it must prove his intent was to hurt the United States and to aid a foreign power; and it must prove the information he supplied a foreign power involved national defense.

Any prosecutor has a serious problem proving intent in espionage. So far as is publicly known, Miss Bentley has produced no documents coming from White. There are, however, some papers identified as being in White's handwriting among the "Pumpkin Papers" which Chambers had kept in a pumpkin.

Very probably, judging from what Atty. Gen. Brownell told the Senate internal security subcommittee this week, some important evidence against those on the Bentley list was obtained by the FBI through tapping their telephones.

Even if the government has enough wiretap evidence against White to convict him, it couldn't be used under present law. The government not only couldn't use wiretaps; and another allowing the even use evidence it got through leads obtained by wiretapping.

Although Miss Bentley named 37 persons as part of an espionage group, she did not claim to have received information directly from all of them. Even in a case where she had, and thus could testify as a direct witness, the government would probably be reluctant to start an espionage trial, carrying the death penalty, without the testimony of more witnesses.

If the government could get some of those named by Miss Bentley to testify against the others, it might attempt a trial. While some of those pointed to by Miss Bentley declared their innocence, as White did, others refused to answer questions of congressional committees.

They cited the Constitution's Fifth Amendment, which says a person in a criminal case can't be compelled to give evidence against himself.

To overcome two main obstacles to trying alleged spies—the law against wiretap evidence and the ease with which witnesses can refuse to testify against one another—Brownell asked Congress:

To pass a law permitting use of wiretaps; and another allowing the attorney general to force certain witnesses, whom he wishes to use against others, to testify after he has promised they themselves won't be prosecuted.

If Brownell could get those two changes he might be able to bring to trial in 1954 some of the 37 persons named by Miss Bentley in 1945.

$14 Worth of Trouble

INDIANAPOLIS (AP)—Sheriffs deputies testified that Fred Brown, 53, Indianapolis, was "zigzagging all over the street" on a bicycle borrowed from a young relative. Magistrate George M. Ober convicted him of drunkenness and fined him $14, explaining:

"I figured it was worth $14 to the county, considering all the trouble he caused the sheriff's office."

DIES IN CLEVELAND

CLEVELAND (AP) — George L. Harrison, 78, who retired in 1947 after 25 years as vice president and general manager of the Perfection Stove Co. here, died at his home yesterday. He was director of manufacturing for the Belmont Stamping Co. in New Philadelphia prior to joining Perfection in 1922.

Reviving White Case Declared Okay by Burke

Ohio's New Senator Sees Nothing Wrong In Republican Action

WASHINGTON (AP) — Ohio's new senator, Thomas A. Burke, a Democrat, said Thursday he sees nothing wrong with the Republicans bringing up the Harry Dexter White case.

He told a news conference, however, "I think when Atty. Gen. Brownell questioned Mr. Truman's loyalty, he was guilty of bad taste."

"The people," continued the successor to the late Sen. Robert Taft, Republican, "are fed up with communism in and out of government. But I don't think they are so much concerned with problems of the past."

Asked if he agreed with former President Truman that the Eisenhower administration has embraced "McCarthyism," Burke said he did not think that applied to President Eisenhower.

"If I reflect the sentiment of the people back home," he said, "I think they support Sen. McCarthy in opposing communism but I think they oppose his methods . . .

"If I infer that I'm praising McCarty, then I haven't spoken clearly. He and I disagreed violently in Cleveland several years ago, when I was mayor there, over a public housing hearing."

On the subject of whether there were spies in the Truman administration, he said:

"If they allowed it, then we can't defend it. They were warned about it.

"The administration chose to leave them (alleged spies) in and watch them. With hindsight, you or I wouldn't have done that. But that was their honest judgment at the time."

On other topics, Burke said:

He will announce probably within the next two weeks whether he will run in Ohio's special election next fall for the remaining two years of Taft's term. First he wants to discuss the matter with Ohio Gov. Frank J. Lausche, to see what Lausche wants to do.

He will spend about two-thirds of his time between now and the opening of Congress in January in Washington.

He has several speaking engagements in Ohio between now and then.

He thinks the most important issues for the next session of Congress will be defense and taxes.

Adults Will Take Part in Students' Radio Panel Show

Something new has been added to the Marion Youth Forum, a weekly radio panel discussion group made up of Marion teenagers.

This Sunday, when the program goes on the air over WMRN at 3:05 p.m., the young panelists will have two adult guests to participate in the discussion. Each week the students who are to take part in the program are chosen by the Student Councils in the city's public junior and senior high schools. Beginning this Sunday, the young panelists will, in turn, choose an adult member for the panel.

Adult participants this week will be Mr. and Mrs. James O. Bull of 298 Belmont St. Teenage panelists will be Shirley Hoffman, Harding High senior; Gilbert Herr, senior, president of the Harding Student Council; Margaretann Romine, eighth grader at Taft Junior High School; Jim Merchant, freshman at Eber Baker Junior High and vice president of the school's Student Council; and Allen Short, eighth grader at Edison Junior High who serves as Student Council secretary.

Topic this week, the fourth of the newly-formed programs, is to be "How Can Relations Between Youth and Parents Be Improved?"

Listeners may phone in questions and direct them to any member of the panel while the program is in progress. Written suggestions will be accepted during the week at the radio station.

Harold Edwards, director of curriculum in the public school system, serves as moderator for the programs.

Tax Receipts Decline

Marion County's sales tax receipts of $18,703 for the week ending Nov. 7 showed a decrease from the $22,975 reported for the same period last year. Statewide collections for that period this year amounted to $3,544,408 in comparison with the $3,207,466 reported for that period last year.

Amounts reported by surrounding counties for the November week this year were: Crawford, $11,592; Delaware, $4,280; Hardin, $8,704; Morrow, $3,548; and Union, $5,768.

Howard Swink Agency Completes New Addition

Holiday Plan Adopted For Marine Enlistees

A new policy to be instituted during the holiday season for men who want to join the Marine Corps was announced today by Master Sgt. C. E. Hopkins, who is in charge of the Marine Corps Recruiting Station located in Mansfield.

A man may now join the Marine Corps and return to his home the same day and not leave for active duty until January, M-Sgt. Hopkins said. He will be assigned to the Marine Corps Reserve on an inactive duty status.

Those men joining the Reserve program during November will not leave for active duty until January of the new year and the men joining in December will leave on active duty in February.

Men electing to join the program will begin their period of obligated service as of the day they join.

5 More Cases Turned Up in Diabetes Tests

Five more positive tests were reported Thursday by Marion County physicians who are cooperating with the week-long campaign to detect diabetes cases.

So far, six of the 110 Marion Countians who took the free detection tests this week show signs of being diabetic.

Doctors throughout the county are cooperating with the drive, sponsored, by the American Diabetes Association. The campaign will end Saturday.

Purpose of the Diabetes Detection Drive is to find and begin treatment of diabetic patients who do not realize they have the ailment, before it's too late to bring it under control. Diabetes can be present in the individual for a long time without revealing any alarming symptoms, yet left untreated, it sometimes proves fatal. Insulin, diet and exercise form a three-sided control which can help the diabetic to live a normal life.

Dr. Charles W. Wilson is serving as chairman of the county drive.

Among League Leaders

Brownies' 'G Men' Keeping Cleveland on Top of NFL

CLEVELAND (AP) — Only three G-men—Graham, Groza and Gillom—keep the unbeaten Cleveland Browns represented among the top five men in the National Football League's individual player statistics

The mighty Browns who go after their ninth straight victory in Pittsburgh Sunday, evidently draw much of their strength from balance and depth of reserves

Among the league's 10 leading rushing backs, the Browns have not a single man Pittsburgh's Steelers have fullback Frank Rogel who has amassed 449 yards for fifth place and halfback Lynn Chandnois who is ninth with 327 yards and an average of 4 4 yards a carry to Rogel's 3 8

But the Browns have 6 backs who gained more than 125 yards each and all 6 have averaged sufficient yardage to make a first down in 3 tries

Rookie halfback Billy Reynolds has rushed the most yardage for Cleveland—269 in 55 tries for a 4 9 yard average With a good day Sunday before a big delegation of fans from his hometown of St Marys W Va, the 21-year-old line-buster may crash the league's top 10

Fleet Ray Renfro, sophomore halfback, has made more yards a carry than any other Brown His 236 in 44 tries averages 5 4 yards In effort Fullback Harry Jagade has had the most ball-toting chances—62 on which he's made 43 yards for a 3 9 yard average

Otto Graham's 130 yards in 30 tries for a 4-yard average halfback Ken Carpenter's 158 in 38 for 4 2 and Marion Motley's 126 in 24 for 5 all have been important contribution to the Browns' running attack.

In forward passing Graham leads the league by wide margin although the Browns pass less than any other NFL club except Washington Graham's 1 889 yards gained 10 9-yard average gain per pass

Police Cagers, Teachers Meet In Second Tilt

The police will try to even the count with the faculties of the public school system tonight when the two meet in a re-match of the contest two weeks ago that saw the teachers walk off with a 46-23 victory.

The game will be played for the benefit of the PTA scholarship fund which sends future teachers to college. The opening tipoff is scheduled for 7:30 p.m. at the YMCA.

The 'school masters' plan to use the same squad that won the last contest. That will be John Luginbuhl, Ken Somerlot, Elvin Beach, Floyd Hofacker, Darl Gatchell, Donald Baggs, Bob Peach, Bill and Dick Cover, Paul O'Rourke and Ray Silver.

Jim Hill, Don Farrar and Joe Whisler will handle the coaching duties.

The teachers even have their own scorekeeper, Miss Philomen Gregg, principal of George Washington School, and their own mascot, Miss Mary Miley, secretary to the superintendent of schools.

The faculty has recruited its own cheerleading squad composed of Miss Clara Alice Wilson, principal of Pearl Street School, and Miss Violet McBride, principal of Vernon Heights School.

The gendarme squad will probably be the same aggregation that saw action in the last game. Heading the list are Police Chief Tom Coon and Sheriff Glenn Obenour.

Others slated to play for the police are Deputy Sheriff Bob Lautenslager, State Patrolman Fred Scott and Marion Patrolmen Roy Everly, Leo Harvey, John Long, Bob Edington, John Johnston, Rollin Beach, Lawrence Cocherl and Charles Ferguson.

Seixas and Trabert Fall Again to Aussie Stars

SYDNEY, Australia (AP) — Once again Australia's Ken Rosewall and Lewis Hoad have beaten America's Vic Seixas and Tony Trabert—this time for the doubles campionship of the New South Wales Tennis tourney.

The two 19-year-old Aussie stars won 6-3, 3-6, 4-6, 6-3, 7-5 today but it was apparent that there was very little to choose between the two pairs. Every set was so close it could have gone either way.

Three Mt. Gilead Gridders Named to All-Mid-Buckeye

MT. GILEAD — Three Mt. Gilead players were named to the first defensive team of the Mid-Buckeye conference when officials of that group met at Utica Monday night.

They are Gerald Weaver, guard; Ted Moody, linebacker, and John Staley, half-back. Moody is a senior and Weaver and Staley juniors.

Paul Reuhrmund, Cardington senior was named tackle on the offensive team and John Wells, a senior, of Cardington was named linebacker on the defensive team. Others on the two teams are:

Offense — Fred Cheney, Richwood and John Dewell, Johnstown, ends; Ollie Stopher, Centerburg, tackle; Ralph Harris, Centerburg, center; Max Hoffman, Richwood, and Tom Babb, Utica, guards; and backs, Tom Shields, Richwood, Gregg Arck, Utica, Bill Brate, Centerburg, and Ed Vanausdle, Elm Valley.

Defense—Ronnie Campbell, Elm Valley and Dave Cline, Big Walnut, ends; Jim Adkins, Big Walnut and Bob Watson, Centerburg, tackles; Eddie Neptune, Johnstown, guard; and Bernard Dailey, Big Walnut, and Richard Masters, Elm Valley, backs.

Supt. G. R. Blose, principal, DeWitte Nicholson, and Coach Gene West of Mt. Gilead attended the meeting. Coach Lee Grace was unable to attend because of illness. Members of the league have set a special meeting for next Monday night at Big Walnut to discuss the possibility of admitting other teams to the league. Six schools have applied for membership in the eight team league. Seeking admittance are: Olentangy, Danville, Belleville, Fredericktown, Granville and Marion St. Mary. Possibility that the league might be divided into two divisions was discussed.

Richwood was awarded the league trophy by virtue of having five wins and no defeats in league play. Centerburg won second place having four wins and one tie. No date or place was set for the 1954 football preview. Schedules for most league teams for next season had already been completed. Officers elected were president, Kenneth Paul of Elm Valley; vice president, Hiyen Souder of Big Walnut; and secretary-treasurer, Harold Dickerschied of Elm Valley.

Brooks' Campy Tabbed Most Valuable in NL

NEW YORK (AP)—Roy Campanella's den in St. Alban's, N. Y., soon will have a second Most Valuable Player plaque hanging on the wall.

"I got plenty of room for another one," said the stocky Brooklyn catcher yesterday, as he grinned and winked for cameramen at his Harlem liquor store. The 1953 National League award a decisive victory, has come as an extra present on his 32nd birthday.

"Makes a man feel pretty good," he said. "I can't ask for too much more in life. I guess. It sure was a nice birthday present."

Campanella was an overwhelming choice with 17 of the 24 first-place votes by the 24-man committee of the Baseball Writers Assn. of America. The men, three from each league city, each vote for 10 men and points are awarded on a 12-9-8-7-6-5-5-3-2-1 basis.

The 297-point total piled up by Campanella was the highest since Stan Musial, a three-time winner, received 303 in 1948. The all-time high was Musial's 319 in 1946, only 17 short of the 336-point maximum.

Milwaukee's Eddie Mathews, league leader with 47 home runs, was a solid second with 216 points. He received three firsts but piled up points with 14 seconds.

Duke Snider, Brooklyn's center fielder, was third with 157, followed by St. Louis' Red Schoendienst, 155; Warren Spahn, Milwaukee, 120; and Robin Roberts, Phillies' 23-game winning ace, 106.

Campanella had a fine year, finishing with a .312 average and leading the league with 142 runs batted in and 41 homers, both new league records for catchers.

Although few centipedes have as many as 100 legs, some species have as many as 200.

Ohio Grid Card Light; Only 4 Games Slated

COLUMBUS, Ohio (AP)—Six more Ohio colleges, making the total 29, wind up their 1953 football schedules in tomorrow's four-game program.

Nothing except a bit of prestige rides on the outcome of the quartet of contests.

Ohio State meets Michigan for the 50th time, this time in Ann Arbor where the Bucks haven't won since 1937. Ohio State (6-2) is a touchdown favorite over the Wolverines (5-3), but both are out of the Western Conference and Rose Bowl fights.

The Ohio Staters observed their impressive "senior tackle" tradition yesterday as they wound up a light practice before heading by plane to Dearborn, Mich. Today's workout was to be just a warmup and the Bucks went against their ancient foe with relaxed confidence.

Ohio University, champion of the Mid—American Conference, and loser only to Harvard, winds up against Marshall at Huntington, W. Va. The "Thundering Herd" becomes a member of the rough and ready Mid—American circuit next fall, and the Bobcats will show them what they're up against.

The long-awaited Ohio Wesleyan-Akron game also pops up tomorrow, but most of the gloss has been tarnished. This one was slated all season to be for the Ohio Conference title, but the Zippers were dumped last week by Heidelberg's defending champions and the crown is Wesleyan's no matter what happens.

The Bishops have won six straight in the league, and Akron has a 4-1-0 mark. Wooster, with a 2-3 league mark, entertains Oberlin, a four-time loser, in another Ohio Conference fray.

Xavier and Dayton, each with a losing season, meet Sunday in the Gem City in the second of their 1953 series. Back on Sept. 27 the Musketeers defeated Dayton 7-0, but the Cincinnatians boast only a 2-7 record. Dayton has won three of eight, having dropped the first four.

Two Thanksgiving Day battles wind up the campaign. They send Case (1-6) against Western Reserve (4-3-1) at Cleveland, and Miami (7-0-1) against Cincinnati (8-1-0) on the latter's lot.

Winner of the Cincinnati-Miami fray undoubtedly will claim the state championship, although Defiance has a perfect 8-0-0 record, and Ohio Wesleyan can wind up with 8-0-1 which would match the Redskins if they topple the Bearcats.

Tigers After Sixth Title

Massillon, McKinley Meet In Traditional Grid Battle

COLUMBUS, Ohio (AP)—Massillon makes its big bid for a six-straight Ohio high school football championship tomorrow afternoon.

The terrific Tigers, who have won 56 of 59 under Coach Chuck Mather, including nine straight this season to run their victory string to 22, go against Canton McKinley on the Bulldog grid in the grand finale.

An impressive victory over McKinley, which has a 3-5-1 record, probably would lock up the title for "Touchdown, U.S.A." where it has resided ever since Mather took over.

The state champion will be decided by the state's newspaper and radio sports editors voting in The Associated Press poll following the weekend contests. The champ will receive the huge trophy awarded annually by the Rutgers Hall of Fame.

Just how tough the Tigers are is proved by the statistics. For all plays run from scrummage, Massillon has an average of 8.37 yards, despite the fact only 24 of 66 passes were completed by quarterback Dick Crescenzo. But 15 of the passes resulted in touchdowns, for an average of 38.6 yards per scoring aerial. The Tigers have scored 37 times on running plays, and the average ground covered for the counters was 27.5 yards.

Thus, the grand average per scoring play in both departments was 30.7.

Portsmouth's Trojans, who have battled the Tigers for first place all season, wound up last week with a 44-0 win over Ironton—and should McKinley upset the Massillon powerhouse there's a good chance the river city crew would ease into the top spot. Portsmouth has a 9-0 record.

Tenth-place Lisbon, also with nine straight, finished against Salem last Friday, but the other seven in the top 10 still have a game to play.

Here's the schedule:

Tonight — Cincinnati Purcell, third (9-0-0) at Dayton Chaminade, fifth (8-1-0); New Philadelphia, fourth (8-0-1) at Dover (5-4-0); Youngstown East (5-3-1) at Warren Harding, sixth (7-2-0), Cleveland Benedictine, eighth (8-1-0) at Cleveland Rhodes (8-0-1), and Toledo Scott (4-3-1) at Fremont Ross, ninth (8-1-0).

Tomorrow afternoon—Massillon, first (9-0-0) at Canton McKinley (3-5-1).

Thanksgiving Day — Toledo DeVilbiss, seventh (9-0-0) at Toledo Libbey (4-1-3).

Survey Shows Attendance Up In Pro League

NEW YORK (AP)—Crowds at National Football League games this season are up 12 per cent over 1952 with 10 of the 12 teams sharing in the increase.

An Associated Press survey showed today the league has drawn 1,688,805 customers to its first 48 games. In the same number a year ago the total was 1,504,504, an increase this season of 184,301.

The Los Angeles Rams, making a battle for the Western Division title, show the greatest boost in business. The Rams topped the league in attendance for their first four games in each season but this year their total is 278,741, an increase of 84,024 fans.

The other big improvement came with the switch of the Dallas Texans franchise to Baltimore. Playing as the Colts in the Maryland city the franchise this season has drawn 114,141 for four home games. In Dallas the Texans managed only 53,000 in four.

Martinez Battles Vejar in TV Fight

NEW YORK (AP)—Soldier Chico Vejar of Stamford, Conn., and Ft. Benning, Ga., is a 12 to 5 underdog against handsome Vince Martine of Paterson, N. J., in tonight's Madison Square Garden feature.

The 10-round welter bout, set for 10 p.m., EST, will be beamed across the nation on network radio (ABC) and television (NBC).

Despite Vejar's upset of the 1952 "Rookie of the Year" last March 13, the oddsmakers apparently figure he will be ring rusty after his long absence from boxing's big time. Since his induction into the Army April 21 he has had only two fights, beating Chico Pacjeco and Ronnie Harper. The former NYU drama student has an 11-fight winning streak.

Bell left Cardington last spring after serving as coach there for the past six years. He will replace Edward Wolfe who has accepted a civilian position with the army in Korea. Wolfe was to arrive in Korea on Nov. 18 from Seattle, Wash. He went by plane to Yokohama, Japan.

Returning Coach Bell is a graduate of Defiance College and had taught in the Paulding County schools before accepting the Cardington post six years ago, according to J. L. Patterson, superintendent.

'Brown Eyes' Too Much For Wife, Hers Are Blue

LOS ANGELES (AP)—The song, "Beautiful Brown eyes" was too much for blue-eyed Mrs. Ruth Haugey and she divorced Dr. Dell Haughey on her testimony yesterday that he played the record of it incessantly.

The court awarded her $400 monthly support for herself and the two children. Dr. Haughey gets possession of his model train, his auto, surgical instruments and collections of records and poetry.

Mrs. Haugey, 47, said he even had the children singing the "Brown Eyes" song and that he carried "lovesick poetry" in his billfold although they had been married more than 20 years.

Dr. Haughey said collecting poetry and records was his way of life.

JayCees Hear Contest Winner

Mary Lou Kruskamp Talks at Dinner Event

The monthly dinner meeting of the Junior Chamber of Commerce was held Thursday night in the club rooms of the new YMCA.

A talk was given by Miss Mary Lou Kruskamp, recent winner of the "I Speak For D cracy" contest sponsored by the Marion Jay Cees at Harding High School. Miss Kruskamp was introduced by Ronald Powell, chairman of the contest.

Following the dinner President William Flach presided over the business meeting. A report on the state JayCee meeting held Saturday and Sunday at Dayton was made by William Luse. A delegation of seven members attended the meeting in Dayton.

JayCee pins were awarded by the president to Frank Hamilton, Jay Hawk, Ed Paulin, Charles Mite, John Langmaid, John Mathias and Bob Harold, new members.

The Junior Chamber is cooperating with the Marion Chamber of Commerce in presenting the annual Christmas Parade. William Luse is chairman of this project and assisting him will be Norman Weston, George Drumm, Joe Drake, John Dean, Ralph Wilson, Donald Lister, Ed Paulin, Jay Hawk, Frank Hamilton, Dick Haines, Donald Mathias and William Flach.

A Christmas party for all members of the JayCees and their families has been planned for the December dinner meeting. The JayCees plan to present baskets of food to needy families again this Christmas. The names of these families will be furnished by the "Christmas Clearing House." Drumm and Luse are co-chairmen of this committee.

Guests at the meeting included Theadore Massuros, Howard Conley, Steven Taylor and Earl Krider.

Radio and Television

By John Crosby

Breakfast Scene of the Future

J. CROSBY

Some time ago, Sylvester L. (Pat Weaver, vice chairman of the board of NBC), predicted that television will ultimately be able to peer into everyone's home. In other words, if NBC wanted to plug in on Gen. David Sarnoff, chairman of the board of RCA, an announcer would simply say: "We take you now to David Sarnoff"—and there he'd be. This is a fascinating, if somewhat alarming possibility and I asked the general about it.

"That will come," said the general, "if and when the telephone company adds sight to sound over its telephone service. I don't think that's out of the bounds of possibility. I can go farther than that. In the field of communciation I can see the television set becoming the central device in the home.

"There is no reason why I should not be able to look at my television set and see what is going on in any room of this house—and there are maybe 25 or 30 rooms here."

AS I SAT THERE meditating about a man who didn't know whether he had 25 or 30 rooms, the general pushed a button. A painting sank into the wall, revealing a television set.

"Now," said the general, "if a man is ringing the bell outside my front door, I ought to be able to press a button and see who that person is right on that set. That's possible with a little camera right outside the door.

"The woman of the house ought to have a little camera in every room Today we think nothing of having a telephone in every room. We ought to have a little camera in every room in this house. When my grandchildren come to spend the weekend—if they are asleep and the missus wants to see what is going on—she would just have to look at the television and see what is going on in the nursery—or what's cooking in the kitchen."

The invasion of privacy in short could be formidable indeed. In last week's Life magazine, there was a chilling layout of pictures showing television cameras keeping "a watchful eye" on convicts in a prison—at work, in their cells, everywhere—strongly reminiscent of George Orwell's "1984." Even the guards hate it. And the children in the nursery and the cook in the kitchen will hardly love it. A guy wants to be alone some of the time.

BUT THE GENERAL had moved on to other things—to forecasting little TV sets with tiny projection tubes two or three inches in diameter in place of those 27 or 30 inch tubes which would throw a picture on the opposite wall any size you liked.

These little TV sets, maybe 12 by 9 inches, would be scattered all over the house—eventually projecting color pictures. Then there was the magnetic tape recorder of TV programs which should be along within the next two years.

"Just as you record sound on tape you will be able to record pictures on tape," the general said. "You won't need film. You will have magnetic tape in the home same as you have records. You'll take the magnetic tape and run it through the television set or flash it on a screen."

"You mean we could take a tape of our kids playing in the backyard—just like home movies?" I asked.

"Yes, but I can visualize other uses. You could have a tape attached to your receiver so that if there is a TV show coming that you like, you could make a record of it and play it back."

-:-

AND HE WENT ON to talk about the all-electronic air conditioner his engineers are working on at Camden, N. J., which will have no electric motors or whirling disks, will be completely noiseless and will operate entirely with transistors and vacuum tubes.

The same principle (if it works) can be applied to any home appliace — refrigerators, vacuum cleaners, washing machines, dryers — each small, noiseless, and without moving parts.

The general, I fell to thinking, is going to change the furniture around quite a lot. In my mind's eye I could see a breakfast scene in an average household of the future. The kids had taped Captain Video the night before and are playing it back at breakfast to sustain them till nightfall. Mother is trying to stuff breakfast into them when her little chest telephone rings. It's father upstairs on his little chest telephone. "Where the devil are my cuff links?"

-:-

"THE UPPER LEFT hand drawer, dear." Then she pushes a button which brings in a TV picture of the upstairs bedroom because she knows the big lout never could tell the difference between his right and his left hand. Sure enough, father is rustling through the right hand drawer. "No, stupid, the other drawer."

And later, after she has packed them all off—the kids to school, her husband to work—she is running her noiseless vacuum cleaner through the noiselessly air-conditioned house and in every room there is a picture on the wall of Arthur Godfrey in full color, chuckling and selling Lipton's Tea. . .

N.Y. Stock Quotations

NEW YORK (AP)—The stock market held fairly steady today with a tendency to advance very much in evidence

There were enough losses scattered throughout the list, however, to prevent the market from making much progress.

Most changes either way were in the smaller fractions, but some issues moved around a point

Higher stocks included General Motors, National Distillers, Boeing, Lockheed, Curtiss-Wright, American Telephone, Santa Fe, and Standard Oil (NJ).

Lower were Southern Railway, Cities Service, Chrysler, Montgomery Ward, and United Air Lines.

Church Group Makes Gift to Scholarship Fund

At a meeting of the Forest Lawn Presbyterian Women's Association Tuesday night, a gift of $50 to a missionary scholarship was voted as a memorial to Mrs. Len Thompson, a member who died recently.

Miss Lucile Foreman of the Harding High School faculty was a guest and reviewed "As the Earth Turns." Opening devotions were by Mrs. Robert Griffith, and chairmen giving reports were Mrs S. D. Ross, Mrs. Ed Webb, Mrs Ed Walker, Mrs. James O'Dowd, and Mr.. Florence Everly. A letter of appreciation from the Navajo Indian mission for a gift box sent by the association was read. ANNIE ROONEY By Darrell McClure

EVEN IN THE BRIGHT SUNSHINE IT IS EASY TO UNDERSTAND WHY EVERYBODY CALLS THIS THE OLD HAUNTED HOUSE
IT DOES HAVE A SPOOKY LOOK ABOUT IT—BUT NOW THAT MY EYES ARE OPEN, I CAN SEE IT NEEDS A FACE-LIFTING JOB
I AM SURE MY BANKER WILL LEND—
THANK YOU FOR YOUR OFFER—BUT I THINK I CAN GET ALONG WITHOUT A LOAN—
THE HOUSE IS SOLID—ALL THAT'S NEEDED IS A GOOD CLEANING, FRESH PAINT, A LITTLE IMAGINATION AND A LOT OF ELBOW GREASE—AND THAT'S WHAT IT'S GOING TO GET—
